WORK

Product Designer II (contract), Microsoft

Feb 2020 – Present • Remote

- Solo designer for developer experiences on the Microsoft Edge browser, now based on open-source Chromium project.
- Delivered new features and UX improvements for Edge Developer Tools, reaching over 5 mil MAU and more (via other Chromium-based browsers).
- Collaborated with PMs and engineers to ship designs and experiences in multiple feature areas: Improved CSS debugging, personalization, accessibility, feature discoverability, and many customer-requested features.

Designer (contract), Microsoft

Feb 2019 – Jan 2020 • Redmond, WA

- Designed a platform for enterprise IT and A/V buyers to purchase meeting room devices. Streamlined the ordering process from manual email communication to digital channels, reaching over 3k organizations in a year.
- Provided design support for Microsoft Meeting Spaces devices and Microsoft Teams.

User Experience Design Intern, Tableau

Jun – Sep 2018 • Seattle, WA

- Created UX and visual design guidelines for developers making third-party tools for Tableau.
- Designed a Dashboard Extension, a type of plugin for Tableau dashboards, for mapping parts of user-uploaded images to interactive data points.

Product Design Intern, WillowTree Apps

Jun – Aug 2017 • Durham, NC

- Designed and shipped a mobile app for borrowing and sharing test devices in the workplace.
- Provided mobile product design support for agency projects, plus creative work on internal art direction, illustration, branding, and print assets.

EDUCATION

B.S., Human Centered Design and Engineering

Sep 2014 – Aug 2018 • University of Washington, Seattle

Major GPA 3.8/4.0, Cumulative GPA 3.6/4.0
