

Choosing a Theme for the Yearbook

Before we brainstorm as a group, I want you to work **INDIVIDUALLY** on a theme idea for the 2019-20 book.

Look at some of the sample yearbooks to get an idea of how the theme is presented throughout a yearbook.

Take a piece of paper and list your favorite THREE ideas for a theme for the yearbook. You do NOT need to put your name on the paper. Once collected and considered, we will gather as a group and discuss/brainstorm ideas and decide on what we want the theme to be.

Listed below are just a few theme ideas to consider . Take a moment to review some of these ideas for your theme, or develop your own theme. Think of ideas on how we can introduce it on the cover , endsheets, title pages, division pages, and sections of the yearbook. There is no wrong theme; but a theme might be underdeveloped and difficult to understand.
