

NIAGARA BELCO **GEN+** Stairlift

The Niagar Belco **GEN+** stairlift is synonymous with comfort and reliability, thanks to its compact and proven maintenance-free drive system. This model is suited for staircases that run in a straight line from top to bottom, with no intermediate landings or corners. With its single-rail design there is not better choice than a Niagara Belco **GEN+** stairlift.

As with all NIAGARA BELCO products the **GEN+** provides the user a seamless and safe experience. A series of safety features including; emergency stop button, emergency lowering device and obstacle detection offer the peace of mind when operating the lift.
