

SC INTERIORS

We bring brands to life
in places & spaces

ABOUT US

SC Interiors is an award-winning, full-service interior design arm under SC Branding. Specializing in commercial and residential design, SC Interiors is committed to providing excellence and delivering exceptional projects at or below your budget.

Our interior design division specialises in hotel, hospitality and Retail, as well as high-end private residential schemes. SC Interiors has a reputation for bespoke interior design of the very highest quality and for providing excellent services to our clients, who single out our attentive, responsive, practical and flexible attitude. We pride ourselves on being great listeners; on the exceptional quality of our award-winning final schemes and on our true understanding of the workings of the niche market growth in Bhutan.

INTERIOR DESIGN WITH US

Our thoughtful approach, wealth of experience and sensitivity to form and finish enable us to create contemporary and stylish interiors that not only uniquely reflect and enhance our client's brands and spaces, but are both practical and functional.

One size doesn't fit all. We work in partnership with clients and tailor projects to their individual needs, calling on different disciplines when necessary.

Our reputation speaks for itself. We have long relationships with many of our clients and are proud to have been integral to the evolution and growth of their brands. We work hard to remain fresh and contemporary, challenging ourselves to keep on raising the bar and creating work that is both compelling and effective. Positive relationships are vital to our success. We tailor our approach to suit a client's needs, whilst drawing on proven processes to give structure to projects and ensure we get from A to B on time and within budget.

OUR PROCESS

THE CONNECTION

Tell us your story.
We'll tell you more of ours.

THE ON-BOARD MEETING

We sit. We talk project scope, budget, timelines and our process. We discuss your vision, the practical and the pretty.

THE PROPOSAL

We'll send you a proposal outlining your project scope and detailing our design fees. If it's good to go, give us the green light and we'll start building your vision.

THE DESIGN

This is where inspiration turns tangible. We get familiar with your likes and dislikes. We learn your preferences and your

lifestyle. Drawing from your story, we create a complete design concept and source the proposed vision: flooring, countertops, tile, furnishings, lighting and plumbing fixtures, fabrics, finishes.

THE PRESENTATION

Storyboarding time! We present the big vision for your new space. You decide what you like and we begin the next step.

THE EXECUTION

With final design approved, we help you place orders and track progress, keeping you in the loop. You can either order your own or we can help with executions.

THE INSTALLATION & FINAL REVEAL
