

PEF

TRANSFORMING
PUBLIC EDUCATION

You Are Invited To PEF'S College Knowledge Virtual Sessions

PURPOSE

To provide knowledge about college to students on their journey to college

MISSION & OBJECTIVE

In an effort to support students on the road to college, PEF would like to offer virtual sessions where experts will share information about the college process. One of the most important decisions our students will make is to continue on to college. PEF's College and Career Success work focuses on encouraging students to attend college, and provides them and their families with support and access to help them accomplish this goal
