Oh, and I'm also bilingual in  and , with a hint of  (grazie mamma)!

A Content Manager is like a factotum of digital communication.

Thanks to my strategic and technical skills, I can manage projects from A to Z. From marketing surveillance to creation and execution of editorial and marketing strategies, from SEO to SMO, from social media management to the mastery of its tools and trends... But in order to do all that, you need to create content, and that's where I come in.
