

# Nordic WAY 2

ITS Factory development forum 1/2020  
NordicWay2 Finnish C-ITS deployment pilot demonstration

Michaela Sannholm and Anna Schirokoff,  
Finnish Transport and Communications  
Agency Traficom

# The Finnish C-ITS-deployment pilot

- The aim of the pilot was to **enhance traffic safety and fluency by**
  - **creating a new way to share C-ITS-messages** between traffic information suppliers
  - **giving end users more information of better quality**
- The architecture to share C-ITS-messages through a central cloud, developed in NordicWay (2014-2017) as starting point
- Three suppliers contracted (Posti, Infotripla, EEE Innovations)
- Legal and technical requirements studied in 2019
- Three interchange nodes exchanged their ecosystem's C-ITS messages 02/2020-05/2020

# NordicWay3 – urban connection

- Aim is to continue the development of C-ITS services and automation done in NordicWay and NordicWay2
- Duration 2019-2023
- Budget 20,5 M€
  - Finland (4,2 M€), Sweden (10,0 M€), Norway (6,0 M€), Denmark (0,3 M€)
- Implementing bodies in Finland:
  - Finnish Transport and Communications Agency Traficom
  - Finnish Transport Infrastructure Agency
  - Cities of Helsinki, Tampere and Vantaa
  - Traffic Management Finland Group
