Hong Kong Wedding - Katie & Matt

A long-distance love story comes true

By Hitchbird

"Although they had met briefly years before, it was not until Katie made contact whilst passing through HK on a work trip from Dubai that her and Matt reconnected. After a period of long distance, Katie moved to HK and the rest is history..."

Katie & Matt wanted an intimate affair that celebrated the place in which they both reside – Hong Kong.

St John's Cathedral having played host to family weddings and baptisms was the obvious choice for their ceremony while the reception was held at the Shek O Golf & Country Club."

"To ensure that their day would not be hindered by weather, a free form canopy which included 2 bespoke crystal chandeliers and tables adorned with stunning large centerpieces in the classic colors of white and green created the fresh and modern vision the couple had for their day. A large screen displayed instant photos taken from the photographer along with photos taken from earlier in the day proved a big hit."

"Katie & Matt, thank you so much for letting us be a part of your wonderful day. It was beautiful from start to finish. We wish you much love and happiness for your future."

Much love
