gems unearthed

While so many couples gravitate towards popular wedding destinations such as Thailand and Bali, for those who have traveled far and wide but are still looking for somewhere unique to mark their big day, Bliss Creations has you covered.

Since 2005, the resourceful team at Bliss Creations, specializing in destination weddings around Asia Pacific, has brought together couples from around the world creating memories of a lifetime.

"Two of the hottest destinations for 2013 are Cambodia & Sri Lanka", says Creative Director, Sonya Yeung. "Both are off the beaten track and offer exotic and unique experiences for the couple and their guests."

Whether it is the centuries-old, serene Hindu temple complexes of Angkor Wat in Cambodia, or the UNESCO heritage site of an ancient fort in Sri Lanka, the professional and detail oriented services of Bliss Creations will ensure your wedding is one to remember.
