impact on
children

Getting it right for children

When parents are separating or separated, children can often get caught in the middle.

Getting it right for children is a free online course designed to help you parent co-operatively. It can help you to develop positive communication skills, so that you can sort out disagreements and find solutions together.

You will learn:

- How to stay calm and listen as well as talk.
- Why it's helpful to see things from a different point of view.
- What to do to stop a discussion from turning into an argument.
- Skills for finding solutions and making compromises.

To access the course, you will need a smartphone, tablet, or computer, and a good internet connection. It's FREE to use, so you'll just need to create an account with a username and password.

- *Getting it right for children* is designed for separating or separated parents who want to reduce conflict and communicate better with their child's other parent.
- The course is online so you can go through it at your own pace.
- You can do it all in one go but it's often best to spread it over a few weeks to give yourself time to reflect and practise the skills.
