In the lakes Taka-, Joensuu- and Pitkänahvenjärvi - Maximum 3 fish/24h.

Maximum 1 salmon per 24h and fisherman. Maximum 5 salmon per season and fisherman. Female salmon caught in August shall be released.

Minimum size

Grayling 35 cm, Trout 40 cm, Salmon 50 cm.

Fish with care, so we have a good fishing tomorrow as well. Release the smaller fish carefully.

Be respectful to the cabin owners near the river and do not occupy a fishing spot. This applies to everyone; boat, spin, and fly fishermen. Camping allowed for a maximum of 3 nights in the same place.

NOTE! Anyone caught fishing without a valid fishing license will be reported to the prosecutor and be prosecuted for illegal fishing.

Catch report

All catch reports must be sent in through the website elveguiden.no or through the Elveguiden - app on your phone.

Enter your name, date, species caught, length, weight, catch location and whether the fish has been released. Also please attach a picture.

All catch reports will join a lottery where one winner gets a price worth 4000 SEK. 1 reported salmon = 1 lot. A picture of the caught salmon must be included with each report.
