

Improve multifamily
asset performance
with marketing
analytics software

re_nmarkably™

Co-founded by—and for—multifamily real estate marketing professionals

Remarkably is a multifamily real estate marketing data, analytics, and insights company, powered by a proprietary SaaS platform. We are passionate about helping the nation's top property owners, investors, developers, and managers reach their leasing, occupancy, and revenue goals for ground-up developments and existing assets, while driving significant, measurable, and market-beating performance and value.

Remarkably is the 13th spinout of Seattle-based startup studio Pioneer Square Labs (PSL). PSL is a startup studio and venture capital fund. PSL exists to champion the next generation of founders by bringing together world-class talent, big ideas, and investment capital.

Coherent Data

Quantify your property's campaign performance and benchmark against others. Historical baseline reports, progress reports, and campaign models provide coherent views into how your marketing has performed in the past, where you are now, and what you need to do to get to goal.

Actionable Insights

Surface actionable campaign insights into key elements of your leasing campaign. From addressable market analysis to progress against targets, change over previous period, and likelihood of achieving your objectives, a mix of software and analyst support helps ensure you stay on track.

Measurable Results

Improve marketing and leasing success with recommended actions and real results. Data and insights are interesting, but they alone lack impact on your leasing progress. We help you implement plans and tactics to manage your unique campaign risks and seize key opportunities.

Achieve or maintain asset stabilization with marketing analytics

Ideal for Owners, Asset Managers, and Property Managers

Package options include:

Historical Campaign Analysis

Baseline reports offer a clear, summary-level understanding of historical marketing performance over a select time period, and indicate where key issues and opportunities lie.

Strategic Modeling

Marketing performance scenarios illustrate possible approaches to hitting your unique goal, including deadline-, investment-, revenue-, and ROI-driven strategies.

Campaign Performance Reporting

Comprehensive marketing and leasing performance reports provide instantaneous insight into what's working, what's not, and what to change before it's too late.

Lease up a new development, from pre-TCO through stabilization

Ideal for Developers, Capital Partners, and Marketing Managers
Package options include:

Total Addressable Market Analysis

Detailed views of your asset's unique community within a geographic boundary, or combination of boundaries and feeder zip codes, to understand key market opportunities.

Lease-Up Modeling

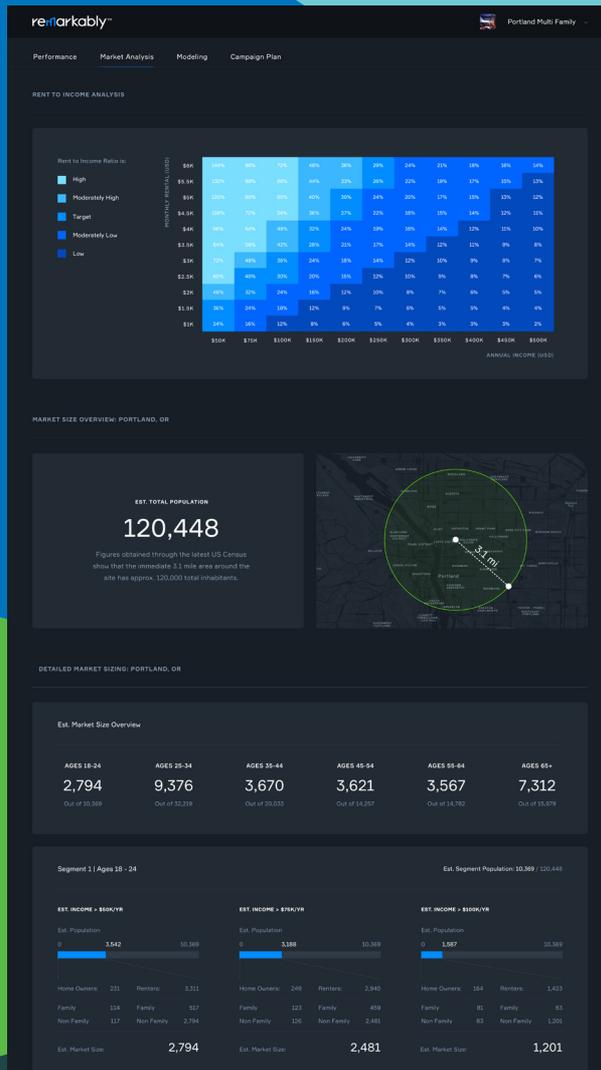

Robust analysis of the campaign investment, lease-up schedule, leasing revenue, and ROI required to achieve your goals—segmented by pre-TCO and post-TCO periods.

Tactical Planning and Execution Support

Thoughtful planning and highly targeted execution across image and reputation, demand creation, leasing enablement, and market intelligence programs combine for an integrated solution.

Onboarding and Training

Full-service data entry and future platform integration with lightweight user training ensures a fast and easy onboarding process for new customers.

Ad-hoc Analytics Support

Dedicated marketing analyst support for your team, property and campaign, available for ad-hoc consults by phone or email, as often as is required to ensure your success.

Quarterly Presentations

Regular campaign performance presentations to your project team ensure clarity and communication among key stakeholders to eliminate confusion and guesswork around progress.

Bolster your campaign efforts with a dedicated marketing analyst

Included at no additional cost to all software subscribers;
ideal for all user types.

Leverage expert campaign services for an all-in-one solution

Avoid the burden of managing and integrating in-house and agency resources with a one-stop shop.

Brand and Reputation Building

Brand strategy, naming, logo design, messaging matrices, lifestyle photography, and organic social content can be powerful factors in shaping perceptions and attracting the hearts and minds you seek.

Demand Creation

Laser-focused digital, social, and print tactics such as retargeting, digital display, paid search, paid social, and ILS advertising will drive highly qualified leads to your website and property.

Leasing Enablement

Materials such as high quality brochures, branded floor plans, tour gifts, and special promotions can equip your leasing team to convert prospective residents at higher rates.
