

## SIGN UP FOR ROUND UP!

A few pennies can have a powerfully positive impact on people's lives. Round It Up for Change is a convenient and painless way for Carroll County Water customers to help families in our community. Participants agree to round up their water bill to the next highest dollar each month, with the extra change going to the Community Foundation of West Georgia, focusing on education, environment, and economic development. Carroll County Water Authority has designed this special program based on the successful electric bill round up Carroll EMC has promoted for years to help those in need in the Carroll County area.
