Astra-Glaze SW+®
TRENWYTH® ARCHITECTURAL MASONRY

Glazed face units are perfect for many commercial, retail, institutional and industrial applications with their impervious surface, flexible design options, and recycled content. Astra-Glaze SW+® glazed units are pre-faced architectural concrete masonry blocks with a thermoset glazing compound permanently molded on one or more faces. This glazing compound is cured and heat-treated in gas-fired tunnel kilns, thus becoming an integral part of the unit. The glazed facings are molded in individual molds, ensuring dimensional uniformity regardless of minor variations in the block.

Features & Benefits
• One step installation
• Low maintenance
• Easy-to-clean
• Custom color matching
• Fire protection
• Sound absorbing
• Repels water & resists mold

Pre-faced architectural units with a thermoset glazing compound permanently molded to one or more faces.

Performance Upgrade Options:
EnduraMax™ System, InsulTech™ System, & Acousta-Wal®
