Maximum absorption by weight	13 lbs./cu. ft.
Density (normal weight)	125 lbs./cu. ft. or more

ASTM C90-11b Standard Specification for Load Bearing Concrete Masonry Units.

Franklin Stone™ 1-inch

ARTISAN MASONRY STONE VENEERS®

Franklin Stone™

Cast stone masonry emulating the look of natural limestone.

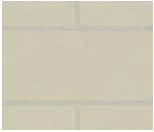

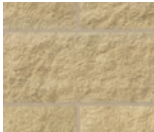

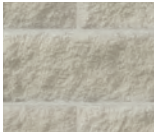

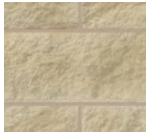

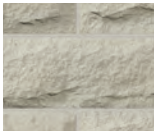

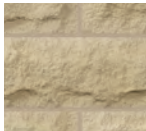

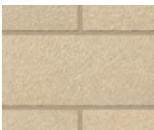

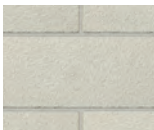

Performance Upgrade Option:
EnduraMax™ Wall System

Whether you prefer smooth texture and clean lines, or a bold chiseled face, Franklin Stone™ is the ideal product for the look of cast stone with modern manufactured masonry veneer advantages. Franklin Stone™ is made from a mixture of white Portland cement, combined with fine aggregates, resulting in a highly dense product with a texture similar to that of natural limestone. And unlike other masonry units, the aggregates do not show, giving Franklin Stone™ its consistent, natural finish.

Features & Benefits

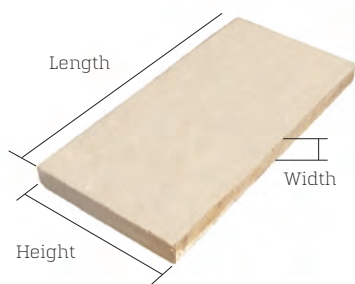

- Large variety of colors & shapes
- Repels water & resists mold
- Low maintenance & durable
- Design flexibility
- Consistent color throughout

Colors & Textures

	Congress Tan	Liberty Gray	Monument White	Senate Sage
Smooth Face				
Rock Face				
Chisel Face				
Texture Face				

Note: All color samples are representative only. For accurate color selection, ask your sales representative for samples.
