[linkedin.com/in/hljohnson2](https://www.linkedin.com/in/hljohnson2)

I leverage my interdisciplinary background in HCI and Computer Science to design compelling and useful digital experiences that address real human needs.

PROJECTS

Graduate Capstone / Sponsored by frog

March 2019 - August 2019

Collaborating with frog and the Refugee Women's Alliance to explore how technology could support extracurricular involvement for immigrant youth

Skills: User Interviews, Synthesis, Ideating, Prototyping, Interaction Design

The Mint Challenge / Sponsored by Microsoft Education

January 2019 - March 2019

A project-based physical computing classroom experience designed to help students explore what impacts plant growth over time

Skills: UX Design, Prototyping, Copywriting, Video, User Testing

WeCare / Sponsored by Premera

September 2018 - December 2018

Mobile application that allows networks of caregivers to manage medication information and refills for their loved ones

Skills: User Interviews, Insight Generation, Journey Mapping, UX Design

WORK

UX Design Intern / Brand New Box

September 2015 - May 2018

- Designed and new features for client projects based on user feedback
- Streamlined project management by designing an internal tool
- Leveraged technical knowledge to communicate with developers
- Improved usability of client projects by conducting usability tests
- Presented research findings to leadership

User Research Consultant / Transition Coalition

September - October 2016

- Increased usability of an online training tool for special educators
- Conducted usability tests and a heuristic analysis of the web-based tool
- Presented recommendations to designers and developers

EDUCATION

University of Washington

Masters in Human-Computer Interaction + Design (MHCID)

September 2018 - August 2019

University of Kansas

B.S. in Computer Science, 3.89

August 2014 - May 2018
