OFFICE OF THE PRESIDENT

January 31, 2008

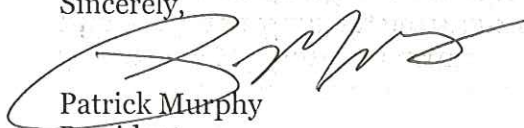

To Whom It May Concern,

It is my sincere pleasure to have this opportunity to write to you and your educational community on behalf of Byrom Davey Construction Company. Byrom Davey installed the Field Turf athletic fields in 2003 and 2004 as part of the exciting MD2000 Project redevelopment plans for Mater Dei High School. Our Mater Dei Administrative Board, as well as the members of our Blue Ribbon Master Plan Committee, found the Byrom Davey Construction Company personnel we worked with to be exceptionally professional with both the football/track and soccer/baseball fields completed on time and within budget. A comment that I heard consistently from my team here at MDHS, regarding Byrom Davey, is how interactive and engaging the construction team was when working with our Mater Dei staff, never presenting a "know it all" attitude in terms of field design concepts or construction approaches. Our coaches, players, parents, alumni and administration are extremely pleased with the athletic fields created by Byrom Davey Construction Company, both in terms of the quality of the product they installed as well as their follow-up service and maintenance.

In our association with the Byrom Davey Company, our Blue Ribbon Master Plan Committee and Administrative Board conducted after action analysis reports on each phase of our redevelopment plan. Each of these reports has lauded Byrom Davey for their construction design, installation and follow-up and the unanimous decision of these oversight groups has been to strongly recommend Byrom Davey Company as our field installation contractor for any future fields which we may construct as part of our new MD2010 and Beyond Master Plan Project.

Therefore, based upon the excellence that we witnessed with the Byrom Davey Construction Company and their team here at Mater Dei High School in 2003 and 2004, it is without hesitation or reservation that I strongly recommend Byrom Davey to your education institution. If you have any questions or need further clarification regarding the qualifications or performance of the Byrom Davey company please contact me at my office at your convenience (715-850-9522).

Sincerely,

Patrick Murphy
President
Mater Dei High School
