To Whom It May Concern:

As project manager for the development of the Patricia H. Birdsall Sports Park for the City of Temecula, I had the good fortune to work with Byrom-Davey as the general contractor for the four (4) synthetic turf soccer fields that are a major feature of the park. Since its grand opening and dedication on December 2, 2006 the park has become the centerpiece of the City's parks system.

Throughout the course of the project, amidst difficulties experienced, I believe, far and above those that have come to be expected in construction projects, Byrom-Davey, and in particular, Vice President Steve Davey and Supervisor of Field Operations Paul Pankow, were always available to address any issue of concern.

With a background of 15 years in public works construction, I have never before had the pleasure of working with a contractor that was as diligent, conscientious, and committed as I have in working with Byrom-Davey. I have received a number of calls from other agencies seeking my input on Byrom-Davey's qualifications, and never hesitate to give them the highest recommendation.

Sincerely,

Jon Salazar, P.E.
Associate Engineer
City of Temecula
