February 1, 2008

To Whom It May Concern:

The Poway Unified School District has been fortunate to have Byrom-Davey, Inc. as the general contractor for the installation of our four synthetic turf high school stadium football/soccer fields and three all weather track installations. I am also happy announce that Byrom-Davey, Inc. has been selected to install the synthetic turf and all weather track at our newest high school scheduled to open in 2009.

The initial four field installations were are at existing high schools, this itself posed many problems, not only with the installation but with the coordination of the schools activities and class time around a very tight construction schedule.

The quality of Byrom-Davey, Inc. installations is only matched by the work ethics and "can do" attitude of their capable staff lead by Steve Davey. Steve's ability to communicate with District personnel, site personnel and his work group made the installations go smoothly, come in on time and at budget.

My tenure at the District has afforded me with the opportunity to work with a great number of general/contractors, good and bad. I can honestly say that I have never worked with a more knowledgeable, professional and caring contractor than Byrom-Davey, Inc.

Please feel free to contact me for further information. I can be reached at (858)679-2526.

Sincerely,

Michael Tarantino  
Director, Maintenance and Operations
