Why Choose Griffin?

There are many reasons to choose Griffin filters and Griffin's unique Microbloc multigraded filtration media elements:

1. Separate Water up to 99.8%

Water is the No. 1 enemy of your engine! Water turns into steam in your engine and destroys your engine components by causing rust. Water is continually condensing inside your fuel tank making it very difficult to keep water out of your fuel. Only Griffin filters effectively remove water from your fuel before it gets into your engine. All Griffin filter elements use the same technology: Microbloc Multigrade Media. Based on moisture content tests conducted by the Productivity and Standard Board (PSB), Singapore in 2005, Griffin microbloc multigrade media can separate water up to 99.8% from fuel (Test Report 57S055941). For more details, please contact your product distributor or representative.

2. Remove Damaging Contaminants, Better Cleaning Efficiency

Even small, nearly invisible particles will damage carburetors, injectors and pumps and reduce fuel efficiency. You add millions of tiny contaminants to your fuel system every time you add fuel. Griffin filters protect your engine from solid contaminants down to 2 micro sizes.

3. High Capacity

Griffin microbloc multigrade media provides multi-layered filtration, the corrugated surface area provides more dirt holding capacity.

4. Longer Filter Life

Griffin filters don't need replacement as often as "will-fit" filter cartridges. Griffin's filtration efficiency is up to 10 times greater than conventional media.

5. Enhance Engine Power

Griffin filters enhance engine performance and reliability. You will feel your engine is more powerful and smoother after you install Griffin filters. Griffin filters will give your engine longer life.

6. Strong Support

All the Griffin elements are supported by high quality metal clamps and a better designed spiral centre-tube.

7. Environment Friendly

Clean fuel means cleaner exhaust. Griffin filters reduce exhaust pollution more effectively than other similar products.

8. Easy to Replace

All Griffin replacement service elements meet OEM specifications and are easy to replace without special tools.

9. Reduce Fuel Consumption

Most people are willing to spend considerable time and energy negotiating a discount on the purchase of their diesel/gasoline powered equipment, but then waste money by failing to ensure their engines operate efficiently. Griffin filters purify your fuel, boosting fuel efficiency and prolonging engine life.

10. Most Efficient and Cost-Effective Choice

Griffin Microbloc Multigrade Media is the leading filtration solution through research, science & technology: not marketing and advertising. We work closely with our scientists. Griffin is offering the newest and the most advanced technology for a competitive price compared with "will-fit" products. Griffin is simply the most efficient and cost-effective choice.

Marine Turbine S4MA Series

304 Stainless Steel Parts, Clear Bowl with Heat Deflector Shield-(Suitable For Gasoline & Diesel)

Griffin Code	Replacement	Description	List Price	Units \ Case
*GTB228S4MA	500MA/500MA	Fuel Filter / Water Separator 500 Series	1116.10	6
*GTB341S4MA	900MA	Fuel Filter / Water Separator 900 Series	1374.70	4
*GTB681S4MA	1000MA	Fuel Filter / Water Separator 1000 Series	1438.10	4
*GTB228DMS4-MA	75/500MAX	Double Manifold Fuel Filter / Water Separator	4440.20	1
*GTB341DMS4-MA	75/900MAX	Double Manifold Filter / Water Separator	5050.60	1
*GTB681DMS4-MA	75/1000MAX	Double Manifold Fuel Filter / Water Separator	5385.85	1

Elements for Turbine Series

Griffin Code	Replacement	Description	List Price	Units \ Case
* GTB22-2	G2010-2/2010SM	Elements for 500 / GTB228 Series, 2 Micron	46.00	12
* GTB22-10	G2010-10/2010TM	Elements for 500 / GTB228 Series, 10 Micron	46.00	12
* GTB22-30	G2010-30/2010PM	Elements for 500 / GTB228 Series, 30 Micron	46.00	12
* GTB34-2	2040SM	Elements for 900 / GTB341 Series, 2 Micron	52.10	12
* GTB34-10	2040TM	Elements for 900 / GTB341 Series, 10 Micron	52.10	12
* GTB34-30	2040PM	Elements for 900 / GTB341 Series, 30 Micron	52.10	12
* GTB68-2	2020SM	Elements for 1000 / GTB681 Series, 2 Micron	63.85	12
* GTB68-10	2020TM	Elements for 1000 / GTB681 Series, 10 Micron	63.85	12
* GTB68-30	2020PM	Elements for 1000 / GTB681 Series, 30 Micron	63.85	12

Marine Diesel Replacement Parts

Common Parts for Turbine Series

* Stocked Item

Griffin Code	Replacement	Description	List Price	Units \ Case
* PEBDM24S		304 S/S Elbow 3/4" UNO X 3/4 JIC to Suit GTB228 Series	173.55	
* PEBDM910S		304 S/S Elbow 7/8" UNO X 3/4 JIC to Suit G900, G1000 Series	192.00	
* PADA24S		304 S/S Adaptor Straight 3/4" UNO X 3/4 JIC to Suit GTB228 Series	100.45	
* PADA910S		304 S/S Adaptor Straight 7/8" UNO X 3/4 JIC to Suit G900, G1000 Series	115.00	
* GCB5MGA	CB5	Clear Bowl for Gasoline for GTB228 / GTB455MA Series with Metal Drain Valve	252.45	24
* GCB5-2GA	RK15279	Clear Bowl for Gasoline for GTB228 / GTB455 Basic Series with Plastic Drain Valve	211.50	24
* GCB910MGA	CB910	Clear Bowl for Gasoline for G900 / G1000MA Series with Metal Drain Valve	327.90	18
* GCB910-2GA	RK11-1606	Clear Bowl for Gasoline for G900 / G1000 Basic Series with Plastic Drain Valve	274.80	18
* GHDS24MA	RK15104	Heat Deflector Shield for Marine MA Series G500MA / GTB228MA / GTB455MA	148.00	
* GHDS910MA	RK11868	Heat Deflector Shield for Marine MA Series G900MA / G1000MA	162.85	
* PWDVA	RK11-1910	Bowl Metal Drain Fitting for all the Marine MA Series	111.50	
* GMB5	RK15301	Metal Bowl (Aluminium) for GTB228 / GTB455 Marine MAC Series	190.35	24
* GMB910	RK11734	Metal Bowl (Aluminium) for G900 / G1000 Marine MAC Series	274.80	18
* GMB5S	RK15301-1	Metal Bowl (Stainless Steel) for GTB228 / GTB455 Marine MAC Series	232.55	24
* GWDF-MAC	RK11-1910	Metal Bowl Drain Plug for Marine MAC	69.85	
* GSALM	RK21069 w/ alarm	Sensor Alarm Kit	153.50	
* GAU5910H	RK11-1669	Gauge with Handle for Single Turbine Series	255.80	
* GSSK24		Seal Service Kit for G500 / GTB228 / GTB455 Series	83.80	
* GSSK910		Seal Service Kit for G900 / G1000 Series	93.00
