KEEP IS HAND BLOWN IN BROOKLYN

Launched in late 2015 by partners Susan Spiranovich + Adam Holtzinger, KEEP hand-blown glass utilizes traditional Italian glassmaking techniques to create contemporary pieces with exquisite craftsmanship and signature glass patterning.

KEEP is dedicated to maintaining the craft of glass blowing, producing objects with a current sensibility.

ZEPHYR

The ZEPHYR bowl is a direct descendant of our CANE Pendant Light.

Glass cane is used to create striped patterning, a technique developed in 16th century Italy and prominent in mid-century design.

The overlapping pattern creates a dynamic visual effect, and the shape creates the illusion of your objects floating in thin air.
