

★ GENIUS IS ★

neither learned nor acquired.

It is **knowing** without experience.

It is **risking** without fear of failure.

It is **perception** without touch.

It is **understanding** without research.

It is **certainty** without proof.

It is **ability** without practice.

It is **invention** without limitations.

It is **imagination** without boundaries.

It is **creativity** without constraints.

It is **extraordinary intelligence!**

Patricia Polacco
