

# Bulletin Board Kit

## How to be a SMILE MAKER!

*This cheerful bulletin board is an excellent way to illustrate kindness and how saying and doing nice things makes people smile! Have your students come up with kind things they can do and say and highlight them on the board.*

*Kids will also have a great time creating a wild and crazy Smile Maker Machine with the many components, widgets and gadgets included in this kit!*

### What you'll need:

- Printer
- 8-1/2 x 11" paper (white & variety of colored paper)
- Black and Red thick marker or crayon.
- Scissors
- Glue or tape
- Large colored paper for the background.

### Directions:

- Print out pages 2-11 on white paper and **follow instructions on each page.**
- Print pages 12-24 on a variety of bright, colored paper. These page contain the components to create your SMILE MAKER machine!
- Print pages 25-27 on RED PAPER.
- Cut out the components and assemble however you choose to create your unique machine. Use the example below as a guide.

### SHARE:

Make even more smiles by taking a picture of your awesome bulletin board and sharing it with us, The NED Show on Facebook!

How to be

**Headline** option 1

Cut along dotted lines and tape both sections together.

# Additional Headlines

Let's be

Be a

Cut along dotted lines. Use these banners if you want your bulletin board to read:

Let's be SMILE MAKERS or Be a SMILE MAKER!

Cut along the outer edge of the black line.  
With a thick marker add your headline such as...  
**Panthers** (your mascot) **are**

# Create your own headline

**SAY**  
**kind**  
**things**

Cut along dotted line.

**DO**  
**kind**  
**things**

Cut along dotted line.

# Action Units

A grid of 15 overlapping circles with dashed outlines, arranged in three rows of five. The circles are intended for cutting out and using as 'Action Units' for a bulletin board kit.

Cut along dotted line.  
Write an example  
of a kind phrase or kind action  
in each of the units.  
Print more if needed.

# Smiling faces

Cut along the outer edge  
of each circle.  
Color the mouths with a red  
marker or crayon to  
emphasize THE SMILE!

# Smiling faces

Cut along the outer edge  
of each circle.  
Color the mouths with a red  
marker or crayon to  
emphasize THE SMILE!

# Smiling faces

Cut along the outer edge  
of each circle.  
Color the mouths with a red  
marker or crayon to  
emphasize THE SMILE!

# Create your own smiling faces

Cut along the outer edge  
of each circle.

Draw your own unique  
SMILEY FACES!

Print multiple copies of this  
page as needed.

# Gears

Cut along the outer edge of the black line.

You can also write in categories (or areas) in which we can be kind such as:

- home
- school
- family
- community

## Example

# More Gears

Cut along the outer edge of the black line.

You can also write in categories (or areas) in which we can be kind such as:

- home
- school
- family
- community

## Example

# Escalator

Cut along the outer edge of the black line.

You can also write in categories (or areas) in which we can be kind such as:

- home
- school
- family
- community

**Example**

with our teachers & classmates

# Conveyor Belt

Cut along the outer edge of the black line.

You can also write in categories (or areas) in which we can be kind such as:

- home
- school
- family
- community

**Example**

in our community

# Wheel

Cut along the outer edge of the black line.

You can also write in categories (or areas) in which we can be kind such as:

- home
- school
- family
- community

**Example**

# Tubes

Cut along the outer edge of the black line.

You can also write in categories (or areas)  
in which we can be kind such as:

- home
- school
- family
- community

# Converter

Cut along the outer edge of the black line.

You can also write in categories (or areas) in which we can be kind such as: home, school, community. See other pages for an example.

# Capacitor

Cut along the outer edge of the black line.  
You can also write in categories (or areas) in which we can be kind such as: home, school, community. See other pages for an example.

# Smile Outputter

Cut along the outer edge  
of the black line.

Place at the end of your  
Smile Maker machine.

# Tubes

Cut along the outer edge of the black line.

# more tubes

# Tubes and Funnels

Cut along the outer edge of the black line.

# Smile Maker letters

Cut along the outer edge of the black line.

# Smile Maker letters

Cut along the outer edge of the black line.
