

Dor Hadash
Erev Shabbat Zoom Service
Outline - Based on 2013 Template

In preparation for the service:

- If you select a theme – an upcoming holiday, peace, the Torah portion, etc., consider selecting prayers, readings, or songs related to your theme.
- It is nice to involve other people in the service, so we encourage you to invite other people to do readings. For Zoom, it's best to arrange guest readers in advance and make the Zoom tech support assistant aware in advance of who will be doing guest readings.
- Get Yahrzeits and announcements from Dor Hadash News.
- Portions marked in boldface are required elements of a traditional service; others are suggested or traditional, but may be varied at the service leader's discretion.
- Service leaders should arrange with the cantor who will be responsible for which blessings. Italics indicate blessings that are normally sung, usually in Hebrew.
