These financial statements cover the CC JCB Active Bond Fund as an individual entity.

The Responsible Entity of the CC JCB Active Bond Fund is Channel Investment Management Limited (ABN 22 163 234 240). The Responsible Entity's registered office is Level 25, Waterfront Place, 1 Eagle Street, Brisbane, QLD 4000.

Directors' report

The Directors of Channel Investment Management Limited (ABN 22 163 234 240, AFSL 439007), the Responsible Entity of CC JCB Active Bond Fund ("the Fund"), present their report together with the financial statements of the Fund for the year ended 30 June 2020.

Principal activities

The Fund is a registered managed investment fund domiciled in Australia.

JamiesonCooteBonds Pty Ltd is the Investment Manager of the Fund.

The Fund seeks to invest in a carefully researched and actively managed portfolio using fundamental and technical analysis to make bond security selections and adjust duration exposures with a view to generating the optimal risk-adjusted portfolio. Security selections are set with hard limits on entry and exit with both floors and ceilings being pre-determined before investments are acquired. The Investment Manager aims to deliver the benefits of a defensive bond allocation with the overlay of active management.

The Fund typically invests in bond securities that are AAA or AA rated, backed by a government, supranational organisation or Public Finance Agency and issued in Australian dollars. Derivatives are used for interest rate hedging purposes or to replicate underlying bond securities in the form of futures contracts listed on the Sydney Stock Exchange. All futures will be exchange-traded. The use of futures may generate some gearing to the Fund which the management team will control using a risk-adjusted framework.

The Fund aims to deliver investors with returns that outperform its benchmark, the Bloomberg AusBond Treasury 0+ Yr Index over rolling 3 year periods.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year.

Directors

The following persons held office as Directors of Channel Investment Management Limited during or since the end of the year and up to the date of this report:

Mr G Holding
Ms K Youhanna
Mr S Jordan

The Responsible Entity has a Compliance Committee consisting of two independent persons and one non-independent person. This committee's role is to oversee the compliance requirements of the Fund operated by the Responsible Entity.

Review and results of operations

There have been no significant changes to the operations of the Fund since the beginning of the financial year. The Fund continued to invest funds in accordance with target asset allocations as set out in the governing documents of the Fund and in accordance with the provisions of the Fund's Constitution.

The Fund's performance for Class A was 4.53% (net of fees) and for Class B was 4.75% (net of fees) for the year ended 30 June 2020. The Fund's benchmarks, the Bloomberg AusBond Treasury 0+ Yr Index returned 4.18% for the same period.

The performance of the Fund, as represented by the results of its operations, was as follows:

	Year ended 30 June 2020	Year ended 30 June 2019
Operating profit/(loss) before finance costs attributable to unitholders (\$'000)	38,184	43,966
Distributions - Class A		
Distributions paid and payable (\$'000)	21,131	15,445
Distributions (cents per unit)	3.22	4.20
Distributions - Class B		
Distributions paid and payable (\$'000)	11,424	4,614
Distributions (cents per unit)	3.56	2.10

Directors' report (continued)

Significant changes in state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Fund that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2020 that has significantly affected, or may significantly affect:

- (i) the operations of the Fund in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Fund in future financial years.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Fund.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

The COVID-19 pandemic has presented significant challenges to global and domestic economies. Investment markets have been significantly disrupted by the pandemic which has caused uncertainty and increased market volatility through the second half of the 2020 financial year. At the date of signing, there remains a high level of uncertainty regarding the extent and duration of the impact from the COVID-19 pandemic. The directors and investment manager continue to manage and monitor the actions taken to address negative impacts of the pandemic to the fund.

Indemnification and insurance of officers and auditors

Insurance cover provided to either the officers of Channel Investment Management Limited or the auditors of the Fund is paid by Channel Investment Management Limited and not out of the assets of the Fund. So long as the officers of Channel Investment Management Limited act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund.

The auditors of the Fund are in no way indemnified out of the assets of the Fund.

Fees paid to and interests held in the Fund by the Responsible Entity or its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 16 of the financial statements.

No fees were paid out of Fund property to the Directors of the Responsible Entity during the year.

There were no interests in the Fund held by the Responsible Entity or its associates as at the end of the financial year.

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in Note 14 to the financial statements.

The value of the Fund's assets and liabilities is disclosed on the statement of financial position and derived using the basis set out in Note 2 to the financial statements.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

Directors' report (continued)

Rounding of amounts to the nearest thousand dollars

The Funds are entities of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* and in accordance with that instrument, amounts in the financial report and directors' report have been rounded off to the nearest thousand dollars unless otherwise stated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of the Directors of Channel Investment Management Limited, the Responsible Entity.

Mr G Holding
Director
Channel Investment Management Limited

Brisbane

Auditor's Independence Declaration

As lead auditor for the audit of CC JCB Active Bond Fund for the year ended 30 June 2020, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

A handwritten signature in black ink, appearing to read 'Ben Woodbridge', is written over a faint, light-colored signature line.

1 General information

These financial statements cover CC JCB Active Bond Fund (the "Fund") as an individual entity. The Fund was constituted on 8 February 2016, registered as a managed investment scheme on 9 February 2016 and commenced operations on 3 August 2016, and will terminate in accordance with the provisions of the Fund's Constitution or by Law.

The Responsible Entity of the Fund is Channel Investment Management Limited (ABN 22 163 234 240) (the "Responsible Entity"). The Responsible Entity's registered office is Level 25, Waterfront Place, 1 Eagle Street, Brisbane, QLD 4000. The financial statements are presented in the Australian currency.

The Responsible Entity is incorporated and domiciled in Australia.

JamiesonCooteBonds Pty Ltd is the Investment Manager of the Fund.

Until 15 September 2020, the Custodian of the Trust was RBC Investor Services Trust. On 19 August 2020, Channel Investment Management Limited appointed Citibank N.A. (Citibank) as Custodian of the Fund and on 15 September 2020, the assets of the Fund were transferred to new custodian, Citibank.

The Fund seeks to invest in a carefully researched and actively managed portfolio using fundamental and technical analysis to make bond security selections and adjust duration exposures (against the Benchmark) with a view to generating the optimal risk-adjusted portfolio. Security selections are set with hard limits on entry and exit with both floors and ceilings being pre-determined before investments are acquired. The Investment Manager aims to deliver the benefits of a defensive bond allocation with the overlay of active management.

The Fund typically invests in bond securities that are AAA or AA rated, backed by a government, supranational or Public Finance Agency and issued in Australian dollars. Derivatives are used for interest rate hedging purposes or to replicate underlying bond securities in the form of futures contracts listed on the Sydney Stock Exchange. All futures are exchange-traded. The use of futures may generate some gearing to the Fund which the management team control using a risk-adjusted framework.

The Fund aims to deliver investors with returns that outperform the Bloomberg AusBond Treasury 0+ Yr Index over rolling 3 year periods.

The financial statements were authorised for issue by the directors of the Responsible Entity on 22 September 2020. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit fund for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are generally expected to be recovered or settled within twelve months, except for investments in financial assets and net assets attributable to unitholders. The Fund manages investments in financial assets based on the economic circumstances at any given point in time, as well as to meet liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, but this amount cannot be reliably determined as at balance date.

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

(ii) New and amended standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2019 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(iii) New accounting standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2020, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Financial instruments

(i) Classification

Investments

The Fund classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's portfolio of financial assets is managed and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund uses fair value information to assess performance of the portfolio and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Fund's policy is for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(i) Classification (continued)

Investments (continued)

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, the debt securities are measured at fair value through profit or loss.

(ii) Recognition/derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets or financial liabilities from this date.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liabilities are discharged, cancelled or expires.

(iii) Measurement

(a) Financial instruments at fair value through profit or loss

At initial recognition, the Fund measures a financial assets and financial liabilities at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within net gains/(losses) on financial instruments at fair value through profit or loss in the period in which they arise.

For further details on how the fair value of financial instruments is determined please see Note 4 to the financial statements.

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(c) Net assets attributable to unitholders

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests in accordance with the Fund's constitution. The units are classified as financial liabilities as the Fund is required to distribute its distributable income. The units can be put back to the Fund at any time for cash based on the redemption price. The fair value of redeemable units is measured at the redemption amount that is payable (based on the redemption unit price) at the end of the reporting period if unitholders exercised their right to redeem units in the Fund.

Units are classified as equity when they satisfy the following criteria under AASB 132 *Financial Instruments: Presentation* :

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Fund, and is not a contract settled in the Fund's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

(d) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes deposits held at call with financial institutions.

Payments and receipts relating to the purchase, if any, and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity.

(e) Investment income

(i) Interest income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

2 Summary of significant accounting policies (continued)

(e) Investment income (continued)

(i) Interest income (continued)

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

(f) Expenses

Any expenses which are paid by the unitholder from Fund assets are included in the Fund's financial statements and recognised in the profit or loss on an accruals basis. Any expenses that are paid directly to the Responsible Entity and/or investment manager by the unitholder as per the terms of individual agreements are not recognised in the Fund's financial statements.

(g) Distributions

Distributions are payable as set out in the Fund's product disclosure statement and/or Fund's constitution. Such distributions are recognised as payable when they are determined by the responsible entity of the Fund.

(h) Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. Movements in net assets attributable to unit holders are recognised within the statement of changes in equity.

(i) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(j) Receivables

Receivables may include due amounts for coupon payments. Coupon payments are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment in accordance with the policy set out in Note 2(e) above. Amounts are generally received within 30 days of being recorded as receivables.

Receivables include such items as Reduced Input Tax Credits (RITC) and interest receivable.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(k) Payables

Payables include liabilities and accrued expenses owed by the Fund which are unpaid as at the end of the reporting period.

As the Fund has a contractual obligation to distribute its distributable income, a separate distribution payable is recognised in the statement of financial position as at the end of each reporting period where this amount remains unpaid as at the end of the reporting period.

(l) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

2 Summary of significant accounting policies (continued)

(m) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as audit fees, custodial services and investment management fees have been passed onto the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of 75% hence investment management fees, custodial fees and other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

(n) Use of estimates

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Fund's financial instruments, quoted market prices are readily available. However, certain financial instruments, for example over-the-counter derivatives or unquoted securities, are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the area that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

For certain other financial instruments, including amounts due from/to brokers and payables, the carrying amounts approximate fair value due to the short-term nature of these financial instruments.

(o) Rounding of amounts

The Funds are entities of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* and in accordance with that instrument, amounts in the financial report and directors' report have been rounded off to the nearest thousand dollars unless otherwise stated.

3 Financial risk management

(a) Objectives, strategies, policies and processes

The Fund's activities expose it to a variety of financial risks including market risk (which incorporates interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management program focuses on ensuring compliance with the Fund's Product Disclosure Statement and seeks to maximise the returns derived for the level of risk to which the Fund is exposed. Financial risk management is carried out by an Investment Manager under policies approved by the Board of Directors of the Responsible Entity (the Board).

The Fund uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate risk and ratings analysis for credit risk.

As part of its risk management strategy, the Fund uses derivatives and other investments, including interest rate futures, to manage exposures resulting from changes in interest rates, and exposures arising from forecast transactions. These methods are explained below.

(b) Market risk

(i) Price Risk

The Funds are exposed to securities and derivatives price risk. This arises from investments held by the Funds for which prices in the future are uncertain. Securities and derivatives are classified in the statements of financial position as at fair value through profit or loss. All securities investments present a risk of loss of capital.

The Investment Manager continues to monitor the impact of COVID-19 and take appropriate action to reduce the volatility and negative impacts on the Fund.

The Funds' overall market positions are reported to the Board on a regular basis.

Net assets attributable to unitholders include investments in fixed interest securities and derivatives.

Sensitivity analysis

An increase of 10% at the reporting date of the market prices attributable to the assets held by the Funds would have the following impact on the Funds' operating profit/(loss) and net assets attributable to unitholders. This analysis assumes that all other variables remain constant. A decrease of 10% would have an equal, but the opposite effect to the amounts shown below, on the basis that all other variables remain constant.

3 Financial risk management (continued)

Sensitivity analysis (continued)

	Effect on net profit attributable to unitholders	
	30 June 2020 \$'000	30 June 2019 \$'000
+10% Price movement - Impact on the Fund's operating profit/(loss) and net assets attributable to unitholders	108,189	64,438
-10% Price movement - Impact on the Fund's operating profit/(loss) and net assets attributable to unitholders	(108,189)	(64,438)

(ii) *Interest rate risk*

The Fund's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

The Fund's main interest rate risk arises from its investments in fixed interest securities.

Interest rate risk is managed by using model-based, risk adjusted systems which allocate bond and futures investments and risk using a strict and disciplined approach honed over years of global market experience. Systems used in this process include Bloomberg AIM (ranked no 1 in global Greenwich survey for OMS providers) and Bloomberg PORT.

The table below summarises the Fund's exposure to interest rate risk at the end of the reporting period.

	Weighted Average Effective Interest Rate	Floating Interest Rate \$'000	Fixed Interest rate \$'000	Non-interest Bearing \$'000	Total \$'000
30 June 2020					
Financial Assets					
Cash and cash equivalents	0.01%	9,045	-	-	9,045
Due from brokers - receivable for securities sold		-	-	14,758	14,758
Receivables		-	-	5,844	5,844
Financial assets at fair value through profit or loss	2.98%	-	1,081,893	-	1,081,893
Total Financial Assets		9,045	1,081,893	20,602	1,111,540
Financial Liabilities					
Distributions payable		-	-	22,101	22,101
Payables		-	-	438	438
Due to brokers - payable for securities purchased		-	-	-	-
Financial liabilities at fair value through profit or loss		-	-	120	120
Total Financial Liabilities		-	-	22,659	22,659

	Weighted Average Effective Interest Rate	Floating Interest Rate \$'000	Fixed Interest rate \$'000	Non-interest Bearing \$'000	Total \$'000
30 June 2019					
Financial Assets					
Cash and cash equivalents	0.50%	6,659	-	-	6,659
Due from brokers - receivable for securities sold		-	-	7,572	7,572
Receivables		-	-	5,127	5,127
Financial assets at fair value through profit or loss	4.19%	-	644,365	15	644,380
Total Financial Assets		6,659	644,365	12,714	663,738
Financial Liabilities					
Distributions payable		-	-	16,599	16,599
Payables		-	-	254	254
Due to brokers - payable for securities purchased		-	-	3,559	3,559
Financial liabilities at fair value through profit or loss		-	-	-	-
Total Financial Liabilities		-	-	20,412	20,412

The table at Note 3(c) summarises the impact of an increase/decrease of interest rates on the Fund's operating profit and net assets attributable to unit holders through changes in fair value of changes in future cash flows. The analysis is based on the assumption that the interest rates changed by +/- 100 basis points from the period end rates with all other variables held constant.

3 Financial risk management (continued)

(c) Summarised sensitivity analysis

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unit holders to market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in foreign exchange rates, interest rates and the historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market movements resulting from changes in the performance of and/or correlation between the performances of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables should not be used to predict future variances in the risk variables.

	Impact on operating profit/net assets attributable to unit holders	
	Interest rate risk	
	Increase 15% \$'000	(Decrease) (15%) \$'000
As at 30 June 2020	4,842	(4,842)
As at 30 June 2019	4,051	(4,051)

The sensitivity of the interest income is the effect of the assumed changes in interest rates on the interest income for the year, based on the floating rate financial assets held at 30 June 2020 with all other variables remaining constant.

(d) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Fund holds no collateral as security or any other credit enhancement. The maximum exposure to credit risk at the end of each reporting period is the carrying amount of the financial assets. None of these assets are impaired nor past their due date.

(i) Debt securities

The Fund invests in debt securities which have an investment grade categorisation as rated by Standard and Poor's/Moody's. For unrated assets a rating is assigned by the Investment Manager using an approach that is consistent with the approach used by rating agencies. All debt securities must have a minimum investment grade as outlined in the Fund's Product Disclosure Statement.

An analysis of debt by rating is set out in the table below.

	As at 30 June 2020 \$'000	As at 30 June 2019 \$'000
Australian debt security rating		
AAA	892,962	609,091
AA+	188,931	-
AA	-	35,273
Total	1,081,893	644,365

(ii) Derivative financial instruments

For derivative financial instruments, the Investment Manager has the ability to use gearing in the form of interest rate futures. Derivatives are used for interest rate hedging purposes or to replicate underlying bond securities in the form of futures contracts listed on the Sydney Stock Exchange. Futures can have the ability to magnify both profits and losses. There is also a liquidity risk associated with futures in that it may be difficult in times of volatility to trade in reasonable size.

(iii) Settlement of securities transactions

All transactions in fixed income securities are settled/paid for upon delivery using approved brokers. The risk of default is considered low, as delivery of securities sold is only made once the broker has received payment. Payment is made once the securities purchased have been received by the broker. The trade will fail if either party fails to meet its obligations.

(iv) Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of AA (as determined by Standard and Poor's/Moody's) or higher.

(v) Other

The Fund is not materially exposed to credit risk on other financial assets.

(vi) Maximum exposure to credit risk

The maximum exposure to credit risk before any credit enhancements at the end of each reporting period is the carrying amount of the financial assets. None of these assets are impaired nor past due but not impaired.

3 Financial risk management (continued)

(e) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. This risk is controlled through the Fund's investment in financial instruments, which under normal market conditions are readily convertible to cash. In addition, the Fund maintains sufficient cash and cash equivalents to meet normal operating requirements.

In accordance with the Fund's policy, the Responsible Entity monitors the Fund's liquidity position on a daily basis. The Fund's policy is reviewed annually. In order to manage the Fund's overall liquidity, the responsible entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unitholders. The Fund did not reject or withhold any redemptions during 2020 and 2019.

The Fund's Constitution provides for daily application and redemption of units and it is therefore exposed to liquidity risk of meeting unitholder redemptions at any time. Units are redeemed on demand at the unitholder's option. At 30 June 2020, net assets attributable to unitholders was \$1,088,881 (2019: \$643,326). See note 14.

(i) Maturities of non-derivative financial liabilities

The table below analyses the Fund's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month \$'000	1 to 6 months \$'000	6 to 12 months \$'000	Over 12 months \$'000	Total \$'000
At 30 June 2020					
Distribution payable	22,101	-	-	-	22,101
Payables	438	-	-	-	438
Due to brokers - payable for securities purchased	-	-	-	-	-
Contractual cashflows (excluding derivatives)	22,539	-	-	-	22,539
	Less than 1 month \$'000	1 to 6 months \$'000	6 to 12 months \$'000	Over 12 months \$'000	Total \$'000
At 30 June 2019					
Distribution payable	16,599	-	-	-	16,599
Payables	254	-	-	-	254
Due to brokers - payable for securities purchased	3,559	-	-	-	3,559
Contractual cashflows (excluding derivatives)	20,412	-	-	-	20,412

(ii) Maturities of net settled derivative financial instruments

The table below analyses the Fund's net settled derivative financial instruments based on their contractual maturity. The Fund may, at its discretion, settle financial instruments prior to their original contractual settlement date, in accordance with its investment strategy, where permitted by the terms and conditions of the relevant instruments.

	Less than 1 month \$'000	1 to 6 months \$'000	6 to 12 months \$'000	Over 12 months \$'000	Total \$'000
At 30 June 2020					
Net settled derivatives					
Futures	-	120	-	-	120
Total net settled derivatives	-	120	-	-	120

4 Fair value measurement

The Fund measures and recognises financial assets and liabilities at fair value through profit or loss on a recurring basis.

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

Fair value hierarchy

Classification of financial assets and financial liabilities

The Fund classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (Level 2);
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

4 Fair value measurement (continued)

(a) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets (such as fixed interest securities and futures) are based on quoted market prices at the close of trading at the end of the reporting period without any deduction for estimated future selling costs.

The quoted market price used for financial assets held by the Fund is the current bid price; the quoted market price for financial liabilities is the current asking price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(b) Fair value in an inactive or unquoted market (Level 2 and Level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black Scholes option valuation model.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The following table presents the Fund's financial assets and liabilities measured and recognised at fair value according to the fair value hierarchy at 30 June 2020 and 30 June 2019:

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
At 30 June 2020				
Financial assets				
Fixed interest securities	-	1,081,893	-	1,081,893
Futures	-	-	-	-
Total financial assets	-	1,081,893	-	1,081,893
Financial liabilities				
Futures	120	-	-	120
Total financial liabilities	120	-	-	120
At 30 June 2019				
Financial assets				
Fixed interest securities	-	644,365	-	644,365
Futures	15	-	-	15
Total financial assets	15	644,365	-	644,380
Financial liabilities				
Futures	-	-	-	-
Total financial liabilities	-	-	-	-

There were no transfers between levels during the year.

5 Interest income

	Year ended 30 June 2020 \$'000	Year ended 30 June 2019 \$'000
Interest income from financial assets at amortised cost	-	23
Interest income from financial assets at fair value through profit or loss	25,061	12,544
Total interest income	25,061	12,567

6 Net gains/(losses) on financial instruments at fair value through profit or loss

Net gains/(losses) recognised in relation to financial assets and liabilities at fair value through profit or loss:

	Year ended 30 June 2020 \$'000	Year ended 30 June 2019 \$'000
Financial assets		
Net gain/(loss) on financial assets at fair value through profit or loss	16,394	33,245
Net gains/(losses) on financial assets	16,394	33,245
Net realised* gain/(loss) on financial assets at fair value through profit or loss	24,401	12,093
Net unrealised gain/(loss) on financial assets at fair value through profit or loss	(8,007)	21,152
Net gains/(losses) on financial assets	16,394	33,245
Financial liabilities		
Net gain/(loss) on financial liabilities at fair value through profit or loss	1,078	-
Net gains/(losses) on financial liabilities	1,078	-
Net realised* gain/(loss) on financial liabilities at fair value through profit or loss	1,213	-
Net unrealised gain/(loss) on financial liabilities at fair value through profit or loss	(135)	-
Net gains/(losses) on financial liabilities	1,078	-
Total net gains/(losses) on financial instruments at fair value through profit or loss	17,472	33,245

*Realised gains and losses are recorded using the historical cost information.

7 Auditor's remuneration

During the year the following fees were paid or payable for services provided by the auditor of the Fund:

	Year ended 30 June 2020 \$	Year ended 30 June 2019 \$
PricewaterhouseCoopers Australia Firm		
(i) Audit and other assurance services		
Audit and review of financial statements	19,230	18,750
Audit of compliance plan	7,280	9,000
Total remuneration for audit and other assurance services	26,510	27,750
(ii) Non-audit services		
Tax compliance services	3,250	3,250
Total remuneration for non-audit services	3,250	3,250

The fees for audit, other assurance services and non-audit services are paid by the Responsible Entity out of the administration fees it receives.

8 Distribution to unitholders

The distributions declared during the year were as follows:

	Year ended 30 June 2020		Year ended 30 June 2019	
	\$'000	CPU	\$'000	CPU
Distributions - Class A				
December	6,803	1.21	3,460	1.23
June (payable)	14,328	2.01	11,985	2.97
Total distributions	21,131	3.22	15,445	4.20
Distributions - Class B				
December	3,651	1.18	-	-
June (payable)	7,773	2.38	4,614	2.10
Total distributions	11,424	3.56	4,614	2.10
Total distributions	32,555		20,059	

9 Cash and cash equivalents

	As at 30 June 2020 \$'000	As at 30 June 2019 \$'000
Cash at bank	9,045	6,659
Total cash and cash equivalents	9,045	6,659

10 Financial assets at fair value through profit or loss

	As at 30 June 2020 \$'000	As at 30 June 2019 \$'000
Financial assets		
Fixed interest securities	1,081,893	644,365
Futures	-	15
Total financial assets at fair value through profit or loss	1,081,893	644,380
Total financial assets at fair value through profit or loss	1,081,893	644,380

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in Note 3 and Note 4 to the financial statements.

11 Financial liabilities at fair value through profit or loss

	As at 30 June 2020 \$'000	As at 30 June 2019 \$'000
Financial liabilities		
Futures	120	-
Total financial liabilities at fair value through profit or loss	120	-
Total financial liabilities at fair value through profit or loss	120	-

An overview of the risk exposures and fair value measurements relating to financial liabilities at fair value through profit or loss is included in Note 3 and Note 4 to the financial statements.

12 Receivables

	As at 30 June 2020 \$'000	As at 30 June 2019 \$'000
Interest receivable	5,756	5,075
GST receivable	88	52
Total receivables	5,844	5,127

13 Payables

	As at 30 June 2020 \$'000	As at 30 June 2019 \$'000
Management fees payable	348	201
Administration fees	90	53
Total payables	438	254

14 Net assets attributable to unitholders

Under AASB 132 *Financial Instruments: Presentation*, puttable financial instruments meet the definition of a financial liability to be classified as equity where certain strict criteria are met. The Fund shall classify a financial instrument as an equity instrument from the date when the instrument has all the features and meets the conditions.

Prior to 1 July 2018, the Fund classified its net assets attributable to unitholders as liabilities in accordance with AASB 132. Effective 1 July 2018, the Fund has elected into the AMIT tax regime. The net assets attributable to unitholders of the Fund meet the criteria set out under AASB 132 and are classified as equity from 1 July 2018 onwards.

As a result of the reclassification of net assets attributable to unitholders from liabilities to equity, the Fund's distributions are no longer classified as finance costs in the condensed interim statement of comprehensive income, but rather as distributions to unitholders in the condensed interim statement of changes in equity.

14 Net assets attributable to unitholders (continued)

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

	Year ended 30 June 2020		Year ended 30 June 2019	
	Units	Dollars \$'000	Units	Dollars \$'000
Class A				
Opening balance	403,335,650	415,821	188,249,235	183,136
Applications	447,840,315	470,517	253,467,352	253,742
Redemptions	(143,793,731)	(151,111)	(41,436,712)	(41,329)
Reinvestment of distributions	6,912,440	7,112	3,055,775	2,996
Distributions paid and payable	-	(21,131)	-	(15,445)
Profit/(loss) for the year	-	25,234	-	32,721
Closing balance	714,294,674	746,442	403,335,650	415,821
Class B				
Opening balance	219,348,989	227,505	-	-
Applications	168,892,075	179,661	225,120,487	226,856
Redemptions	(62,677,065)	(66,754)	(5,771,498)	(5,982)
Reinvestment of distributions	486,503	501	-	-
Distributions paid and payable	-	(11,424)	-	(4,614)
Profit/(loss) for the year	-	12,950	-	11,245
Closing balance	326,050,502	342,439	219,348,989	227,505
Closing balance		1,088,881		643,326

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund. There are two separate classes of units and each unit has the same rights attracting to it as all other units of the Fund.

Capital risk management

The Fund manages its net assets attributable to unitholders as capital. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unitholders.

The Fund monitors the level of daily applications and redemptions relative to the liquid assets in the Fund. The Fund's strategy is to hold a certain portion of the net assets attributable to unitholders in liquid investments. Liquid assets include cash and cash equivalents. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units, if the exercise of such discretion is in the best interests of unitholders.

15 Derivative financial instruments

In the normal course of business the Fund enters into transactions in various derivative financial instruments which have certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments such as forwards, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Fund's portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability of the Fund against a fluctuation in market values, foreign exchange risk or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.
- While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Fund.

The Fund holds the following derivative instruments:

(a) Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are usually settled net daily with the exchange. Futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organised financial market.

15 Derivative financial instruments (continued)

(a) Futures (continued)

The Fund's derivative financial instruments at year end are detailed below:

As at 30 June 2020	Fair Value Contractual/ notional \$'000	Fair Value Assets \$'000	Fair Value Liabilities \$'000
Futures	91,347	-	120
Total	91,347	-	120

As at 30 June 2019	Fair Value Contractual/ notional \$'000	Fair Value Assets \$'000	Fair Value Liabilities \$'000
Futures	70,310	15	-
Total	70,310	15	-

(b) Risk exposures and fair value measurements

Information about the Fund's exposure to credit risk and interest rate risk and about the methods and assumptions used in determining fair values is provided in Note 3 and Note 4 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of derivative financial instruments disclosed above.

16 Related party transactions

The Responsible Entity of CC JCB Active Bond Fund is Channel Investment Management Limited.

Channel Investment Management Limited has appointed JamiesonCooteBonds Pty Ltd as the Investment Manager of the Fund and Mainstream Fund Services Pty Ltd to act as Administrator for the Fund. RBC Investor Services Trust were appointed to act as Custodian for the Fund until 15 September 2020. From 15 September 2020, Citibank N.A. act as Custodian of the Fund.

The following fees are charged by the Responsible Entity:

(i) Management fee

The Fund's constitution permits the Responsible Entity to charge a management fee of up to 0.45% per annum (including GST less RITC) of the net asset value of the Class A Units and 0.2563% per annum (including GST less RITC) of the net asset value of the Class B Units. From this, the Responsible Entity pays JamiesonCooteBonds Pty Ltd a fee for acting as the Investment Manager.

The management fee is calculated and accrued daily and is paid monthly in arrears.

(ii) Administration fee

Administration fee is charged by the Responsible Entity for administering the Fund. The maximum Administration Fee is 0.10% per annum (Class A) and 0.1025% per annum (Class B) (including GST less RITC) of the net asset value of the Fund and is calculated and accrued daily and paid monthly in arrears.

The administration fees for Channel Investment Management Limited are payable by the Fund.

This fee covers the costs and expenses of providing administration services to the Fund. These costs and expenses include: registry, administration, custodial, compliance and operational costs, without including extraordinary expenses.

The transactions during the year and amounts payable at year end between the Fund and the Responsible Entity were as follows:

	Year ended 30 June 2020 \$	Year ended 30 June 2019 \$
Management and administration fees for the year paid by the Fund to the Responsible Entity	4,325,439	1,839,114
Aggregate amounts payable to the Responsible Entity at the end of the reporting period	438,620	253,924

Fair value of investments held and distributions paid/payable by the Fund

Related party	Fair value of investments		Distributions paid/payable by the Fund	
	As at 30 June 2020	As at 30 June 2019	As at 30 June 2020	As at 30 June 2019
Charles Jamieson*	\$ 85,256	\$ 84,896	\$ 2,570	\$ 2,377

* Units were held indirectly by Williamjoy Pty Ltd.

(c) Key management personnel compensation

Key management personnel are paid by Channel Capital Pty Ltd, the parent entity of Channel Investment Management Limited. Payments made from the Fund to Channel Investment Management Limited do not include any amounts directly attributable to key management personnel remuneration.

(d) Key management personnel loan disclosures

The Fund has not made, guaranteed or secured, directly or indirectly, any loans to the key management personnel or their personally related entities at any time during the reporting period.

(e) Other transactions within the Fund

From time to time directors of Channel Investment Management Limited or their director related entities, may invest in or withdraw from the Fund. These investments or withdrawals are on the same terms and conditions as those entered into by other Fund investors and are trivial in nature.

Apart from those details disclosed in this note, no key management personnel of the Responsible Entity have entered into a material contract with the Fund during the year and there were no material contracts involving directors' interests existing at year-end.

17 Reconciliation of profit/(loss) to net cash inflow/(outflow) from operating activities

	Year ended 30 June 2020 \$'000	Year ended 30 June 2019 \$'000
(a) Reconciliation of profit/(loss) to net cash inflow/(outflow) from operating activities		
Profit/(loss) for the year	38,184	43,966

Purchase of financial instruments at fair value through profit or loss	(2,731,920)	(1,611,994)
Net (gains)/losses on financial instruments at fair value through profit or loss	(17,472)	(33,245)
(Increase)/decrease in receivables	(717)	(3,976)
Increase/(decrease) in payables	184	174
Net cash inflow/(outflow) from operating activities	(410,487)	(426,389)
 (b) Non-cash financing and investment activities		
The following distribution payments to unit holders were satisfied by the issue of units under the distribution reinvestment plan	7,613	2,996
Total non-cash financing and investment activities	7,613	2,996

18 Events occurring after the reporting period

No significant events have occurred since the end of the period which would impact on the financial position of the Fund as disclosed in the statement of financial position as at 30 June 2020 or on the results and cash flows of the Fund for the year ended on that date.

19 Contingent assets and liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at 30 June 2020 and 30 June 2019.

Directors' declaration

In the opinion of the Directors of the Responsible Entity:

- (a) the financial statements and notes set out on pages 6 to 24 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Fund's financial position as at 30 June 2020 and of its performance for the year ended on that date.
- (b) there are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable.

Note 2(a) confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the Directors.

Independent auditor's report

To the unitholders of CC JCB Active Bond Fund

Our opinion

In our opinion:

The accompanying financial report of CC JCB Active Bond Fund (the Registered Scheme) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Registered Scheme's financial position as at 30 June 2020 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2020
- the statement of comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include a summary of significant accounting policies
- the directors of the Responsible Entity's declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of the Responsible Entity are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

PricewaterhouseCoopers, ABN 52 780 433 757

Liability limited by a scheme approved under Professional Standards Legislation.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Registered Scheme to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Registered Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
