

VIINIKANLAHTI TAMPERE FINLAND

INTERNATIONAL URBAN IDEAS COMPETITION 15 May 2019–17 April 2020

A notification to all participants of the competition 23 September 2020

Dear competition participants,

Due to the global pandemic, events related to the publication of the competition results could not be organised in the spring of 2020. For the same reason, a substitute event cannot, unfortunately, be organised in the autumn of 2020. We would like to thank one more time all of the competition participants for being part of the planning of an area that is very important for the City of Tampere. The City Board of Tampere has decided that the planning of the area will continue based on the winning competition entry and the recommendations of the jury.

An exhibition of the competition will be part of the programme of the Tampere Design and Architecture Week 2020 in early October. Gallery Nottbeck in the Finlayson area is open to the public 12:00–18:00 every day from 2 to 9 October 2020. The address is Satakunnankatu 18 A, Media 54 building, 1st floor. Due to the pandemic, a maximum of 20 people will be able to view the exhibition independently at a time. The exhibition includes presentation boards of the first and second phase competition entries, as well as scale models and videos submitted in the second phase. The exhibition texts are only available in Finnish. For further information, please visit <https://www.tadweek.com/>

I would like to thank all of the participants of this challenging competition on behalf of the organiser, the jury, and myself for your entries, every one of which contributed to the creation of good architecture and landscape architecture in the Viinikanlahti area.

Antti Pirhonen, Competition Secretary
