

# What I've been up to so far

## Co-founder, Jery

2018 - Today

Together with my fellow student Frederic Myers we started Jery, an UX Agency. We worked for various clients (a leading company in the medical sector as well as a startup and currently a car manufacturer) and learned a lot about dealing with clients and customers, organizing workloads and how to get a design business up and running.

## Intern, UP Designstudio

Sep. 2016 - Nov. 2016

This is where I took my first steps in design. I was all about getting to know how things work at an agency, learning a lot about drawing and the job of an Industrial Designer.

---

## Education

### Interaction Design BA, HfG Schwäbisch Gmünd

2017 - Today

The „HfG“ teaches design in the context of solving problems methodically. I learned how to work in interdisciplinary teams, apply design methods within projects and to take a user-centric, problem-oriented perspective on projects.

---

## Social

### Voluntary year in Canada

Sep. 2014 - Sep. 2015

I spent a voluntary social year abroad in Canada providing support for people with special needs and learned a lot about working in a team, resolving conflicts, building relationships and what it means to live in a foreign culture.
