10	\$1,400	\$8,670

\* These income limits reflect the Modified Adjusted Gross Income (MAGI)-converted income standards and include a disregard equal to five percentage points of the Federal Poverty Level as required by the Affordable Care Act. MAGI is a methodology based on federal tax rules, for determining household composition and income.

\*\*"FPL" refers to the federal poverty level.

\*\*\* Instead these limits are tied to state cash assistance levels that have not changed since 1992.
