

*THE
ELECTION
IS IN
SEPTEMBER*

WE REPRESENT OURSELVES.

This Fall, we will elect people to represent us in local, state, and federal government.

In recent months, the people in power have started to mess with our mail.

No matter who's in charge, the USPS and our right to vote are worth protecting.

CORRUPT POLITICIANS ARE AFRAID WE WILL VOTE.

They're letting 1,000 of us die every day from COVID, because it makes us stay home.

Billionaires aren't standing in the way. They don't want the corruption to end.

They think low turnout will let them win in local, state, and federal elections. Luckily, that's not true:

YOU HAVE POWER.

What is true: If we all vote, they will finally have to represent us. The mail sabotage is designed so victory can be declared before all the votes are in.

To reduce strain on our local systems, and make sure our votes are counted in time, we should vote as soon as we can.

* Request our ballots early.

* Vote early.

* Drop off our ballots.

HOW CAN I VOTE?

You can get unbiased info at canivote.org. It was established by the National Association of Secretaries of State (NASS), a neutral, nonpartisan organization.

In most states, you can get an absentee or mail-in ballot, drop off your ballot, or vote early. Each of these options makes it more likely that your vote will count.

HOW CAN I HELP VOTERS?

< <http://fairfight.org>

- * Learn about Fair Fight, which protects American voting rights.
- * Lower voting barriers for your neighbors.
- * Tell your neighbors how important voting is, and they'll find the best way to do it.
- * Be a poll worker.

WE NEED TO KEEP WORKING.

These guidelines can help us establish future policies:

1. We must federally protect elections with zero tolerance for interference by anyone.
2. We must never make voting more difficult for any group of people.
3. We must pay for all ballot postage and allow universal ballot pickup.
4. We must count all ballots postmarked by Election Day.
5. We must allow every adult to vote.
