

*2020*  
*ELECTION*  
*POLICY*  
*GUIDE*

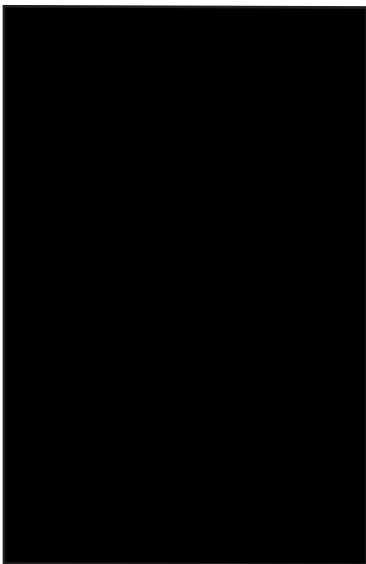

# *HEALTHCARE*

Donald Trump had no healthcare plan when he was elected, he didn't implement a plan while President, and he doesn't have a plan now. He has not taken steps to protect Americans from predatory drug companies.

Joe Biden wants to give all Americans the chance to enroll in a Medicare-like insurance plan, and bring down the cost of prescription drugs. He wants to build on the progress made with the Affordable Care Act, and stand up to the drug companies.

No one should go broke because they're sick.

Good health care policy negotiates with the  
combined power of 330 million people.

# *ENVIRONMENT*

As Americans face unprecedented hurricanes and floods, and are forced out of their homes by wildfires, Donald Trump calls climate change a hoax.

Joe Biden has a bold plan to address climate change that will produce cleaner air, cleaner water, and 5 million new high-paying manufacturing and technology jobs.

California should not have a “fire season.”

# ***SUPREME COURT***

Donald Trump wants to use the Supreme Court to take away our healthcare, make it harder for us to vote, and control what we can do with our bodies.

Joe Biden wants to protect our right to vote, let us choose what to do with our bodies, and common-sense values with a Supreme Court of integrity.

Supreme Court Justices should never be political appointees.

# *ECONOMY*

Donald Trump brags about the success of rich corporations, but working people have been making less money every year for decades. He wants to cut Medicare, Medicaid, and Social Security to make tax cuts for the rich.

Joe Biden says a strong economy depends on helping normal people, and wants only the wealthiest 1% to pay more in taxes. People who make under \$400,000 will not see a tax increase.

No one should need two jobs to survive.
