**Experience the healing,
regenerative, breathing world of color
through the art of veil painting.**

Learn key techniques of veil painting and what it means that color arises out of the interaction of light and darkness. Experience the essential idea of color space and how this relates to us as human beings. Through painting in this way, we can create a sacred space as an invitation to Self or Spirit. Artistic and practical, challenging and inspiring—we develop ourselves as we develop our art!

Pamela Whitman, M.A. received her B.S. from MIT, where she studied both science and humanities. She participated in the Light, Color and Darkness Painting Therapy training in Holland and received her certification from the Medical Section at the Goetheanum.
