

As part of the Novalis Institute's final year we are hosting Pamela Whitman to teach a beginning class on watercolor veil painting, starting Oct. 13th.

This is a great chance to work with a wonderful teacher, and begin to understand the principals of Liane Collot d'Herbois' healing work with "Light, Color, and Darkness"

Creating Sacred Space Through Veil Painting

Dive into the healing, regenerative, breathing world of Color arising out of the meeting of Light and Darkness.

Learn the basics of watercolor veil painting, building up a color atmosphere with successive washes of transparent color, with form arising out of the world of color—instead of the other way around!

Explore the profound significance of "color space" that gives rise to color qualities that relate to us as human beings and gives the possibility of creating "Sacred Space" as an invitation to Self or Spirit in our paintings.

Artistic and practical, challenging and inspiring—we develop ourselves as we develop our art!
