

you and!

designing your **COLLABORATIONS**

esign abilities

Start by thinking of someone you work with regularly. This could be a personal or professional relationship. It should be someone with whom you regularly problem solve and collaborate. Write their name here:

Now consider both the abilities **you** are great at, and **your colleague** is. Circle one or both (or no) icons next to each ability depending on how you view both of your strengths.

You	And!			You	And!	
			<p>Learn from Others (people + contexts) This means empathizing with and embracing diverse viewpoints, testing new ideas with others, and observing and learning from unfamiliar contexts.</p>			
			<p>Experiment Rapidly This ability is about being able to quickly generate ideas - whether written, drawn, or built.</p>			
			<p>Synthesize Information The ability to make sense of information and find insight and opportunity within.</p>			
			<p>Build and Craft Intentionally This ability is about thoughtful construction: showing work at the most appropriate level of resolution for the audience and feedback desired.</p>			

Now combine your sounds to see what you might create together.

You

I notice **myself** using...
(which ability?)

when...
(moment/context of noticing this ability in play)

And!

I notice **my partner** using...
(which ability?)

when...
(moment/context of noticing this ability in play)

Together, we are currently working on...

How might we **both** leverage our strengths and improve our collaboration?

One way might be...

We could also try...

Another idea is...
