This is an individual written reflection, to be submitted online via Canvas.

Due by: Friday, January 25th, 1:30pm

Length: 1-2 paragraphs (roughly 1/2 page)

Prompt:

You’re halfway through your first design project! Take a few minutes to step back and reflect on how it’s going so far, and what you’re learning. Use the prompts below as your guide:

- What are the top 3 design abilities you have needed or experienced in your design work thus far? (You can refer back to your Design Abilities booklet from Day 2 as reference).
- How have you specifically exercised these abilities (both individually and as a team), and why have you needed them?
- What have you found to be most challenging about these abilities, and what’s one way the teaching team could help?
This is an individual written reflection, to be submitted online via Canvas.

Due by: Friday, February 8th, 1:30pm

Length: 1-2 paragraphs (roughly 1/2 page)

Prompt:

Congratulations on completing your first design project! For this reflection, we’d like you to think back on DP1, and also look ahead to DP2, using these prompts:

- What was a particular strength of yours that surfaced in DP1? How did it manifest, and why was it important to your team’s work?
- How did you feel most challenged in DP1? What was a particular way in which you were stretched, and how did you respond?
- What do you want to work on in DP2? How specifically will you work on this?
- What could the teaching team do to support you and your team in DP2?
This is an individual written reflection, to be submitted online via Canvas.

Due by: Friday, February 22nd, 1:30pm

Length: 1-2 paragraphs (roughly 1/2 page)

Prompt:

You’re finishing up your second week of DP2, and things are moving along quickly! Take a minute to reflect on your team’s process so far and where you’re going next with these prompts:

• How has what you learned in DP1 helped inform your process in DP2? What are you doing differently in DP2 to help you navigate ambiguity?

• What might you need to do more of? What might you need to do less of? (These could be individually or as a team.)

• What key questions are you looking to answer with your prototypes this weekend and on Monday?
