

TRENT CALLOWAY

UX/UI DESIGN & RESEARCH

SUMMARY

Highly self-motivated and goal-oriented designer committed to pursuing UX related positions. I offer a strong background of design, problem solving skills, technological proficiency, and the ability to flow through projects from concept to completion.

EXPERIENCE

UI/UX Designer **Chemical Abstracts** Dec 2018 - Oct 2019

Spearheaded design of the CAS Ionic design system, and worked as UX Lead Designer on Chemcats a chemical supplier database that worked across multiple different software front ends.

UI/UX Designer **Thirty-One Gifts** Feb 2018 - Dec 2018

Worked under the direction of the marketing lead to design a brand new customer account system where users can view purchase history, shipping history, current consultant, and saved payment information.

Interactive Designer **K2D** Mar2017 - Jan 2018

Designed websites and interactions for a multidisciplinary design firm specializing in web design and application software design/development. Clients include charities, municipal foundations, real estate agencies, and doctors.

UX/UI Designer **Mediware** Jun 2014 - Mar 2017

Designed user interfaces for Caretend, Caretend Anywhere, Transtem other leading software platforms across the entire Mediware product line. Maintained a close working relationship with developers that led to increased brand and U I consistency.
