

Press release 2020-12-29

New CEO of Hultdins

The Board of Hultdins System AB has appointed Tobias Åman as their new CEO. Tobias replaces Josef Alenius, who will continue as Chairman of the Board. Tobias will take up the position as CEO on January 1st, 2021.

Tobias Åman is an engineer with 15 years of experience in the manufacturing industry in forestry where he has held various managerial positions, such as quality, design and development manager. Tobias has worked for Hultdins for three years, of which the last year as Chief Operating Officer.

- I am honored to take over as CEO and to be given the opportunity to lead a company with such a strong brand, expertise and innovative power. I look forward to, together with both employees and customers, taking the next step in the company's development and to continue creating innovative and sustainable solutions for efficient forestry, says Tobias Åman.

- Tobias has extensive experience from the industry and has in the past year had 100% operational responsibility. Despite major challenges with declining economy and Covid-19, Tobias has managed the business in a very good way. I feel perfectly safe handing over to Tobias. I will remain as chairman of the board and thus be a sounding board for Tobias and Hultdins, says Josef Alenius.
