

BOLD AND INNOVATIVE SERVICES

Recipe for Success - Process

We bring deep knowledge of DoD and Federal enterprise processes like Budget Formulation, Procure to Pay, Reporting, Budget Execution, Order to Cash, Hire to Retire, Cost Accounting, Time and Labor, and Auditing. Our people have expert understanding of systems like DAI / DEAMS (Oracle Financials), GFEBS (SAP), DCAS, MOCAS, DTS (Travel), GPC (Procurement Cards), EDA, iRapt (AP Invoices and Receiving Reports), PD2, Budgeting, FPDS-NG, Synchronada (Relocation), Concur (Travel), Treasury SPS / CARS (Payments / Reconciliation)

Recipe for Success - Technology

Our people are not only trained and certified as the RPA Developers, Architects, and Business Analysts but also knowledgeable in best practices in system integration. We have a collection of re-usable IP consisting of code and templates. Our partnership and close collaboration with RPA software vendors afford us deeper understanding of their products.

Recipe for Success - Our People

Summit2Sea recruits top tier caliber and invests in them. Our people are passionate and result-driven problem solvers. Summit2Sea has a hands-on doer culture that encourages keeping the client interests foremost. We regularly receive the highest client complements and awards that reflect our client commitment.

Roadmap&Governance

As an early adopter of the RPA phenomena, depth and breadth of our experience is unmatched. We can partner with org leadership and help evangelize RPA value, manage inbound funnel, optimise ROI, drive adoption and ensure meticulous governance model at both program and process levels.

Robotics-as-a-Service

We offer end-to-end robotic solution that we can build and host on our cloud for fast turnkey results. We can offer utility billing where one monthly fee includes software licensing, consulting fees and cloud hosting charges in one. Depending upon use case, we can also offer per transaction pricing allowing pure value creation.

Integration with Machine Learning

We have proven expertise in integrating traditional RPA with powerful machine learning platforms such as AWS SageMaker, Databricks ML Flow and UiPath AI Fabric. Limitation of traditional rule-based RPA can be overcome by training machine learning models on your historic data to inform future actions.

Client Focused

Summit2Sea Consulting (S2S) is an information technology and management consulting firm that provides hyper-personalized, innovative solutions to Federal and Commercial clients by combining people, process and technology. We enable transformation by combining our functional expertise, technology and process design. Summit2Sea specializes in delivering in data analytics, system integration and intelligent process automation.
