

AUTOMATE THE RESEARCH AND CORRECTION OF UMDs

Financial Transformation

Our turnkey solution allows you to use your own data to automate the research and corrections of UMDs in DAI

- Summit2Sea built a model that can identify the reason why a UMD occurred, its corrective action and the related obligation line details.
- Summit2Sea connects our model to RPA in order to gather real time information and make the necessary correction

AI models - built using patterns in your data

- Summit2Sea builds custom, accurate models of your business using the last two years of UMD corrections.
- ML Ops pipelines that improve model accuracy over time.
- Automate experiments, testing and deployment as data changes over time.

Recipe for Success - Our People

Summit2Sea recruits top tier caliber and invests in them. Our people are passionate and result-driven problem solvers. Summit2Sea has a hands-on doer culture that encourages keeping the client interests foremost. Our domain knowledge of DoD financial data, ERP systems and AI allow Summit2Sea to uniquely provide our automation results.

Repeatable Process

HunT is a repeatable cloud based process that you can start using today.

Contracting options

- Sole source award based upon our successful prototype Reference: 10 U.S. Code § 2371b - Authority of the Department of Defense to carry out certain prototype projects

Independently Verified and Ready to Use

Our AI prototype results were independently verified by the Joint Artificial Intelligence Center (JAIC), the Defense Innovation Unit (DIU) and DAI agency financial users.

Client Focused

Summit2Sea Consulting (S2S) is an information technology and management consulting firm that provides hyper-personalized, innovative solutions to Federal and Commercial clients by combining people, process and technology. We enable transformation by combining our functional expertise, technology and process design. Summit2Sea specializes in delivering in data analytics, system integration, AI and intelligent process automation.
