Hi Brennan

The Little Falls staff and students love the SofSurface tiles surrounding our playground. When students fall we do not have the injuries or cuts associated with pavement or grassy fields. The teachers love to do supervision duty at the playground because the SofSurface tile cushions their steps. Our classroom floors are concrete so it really makes a difference when you need to stand for 30 minutes of duty.

The tiles look the same as they did the day they were put in. We would recommend the SofSurface Tiles to any school that puts in a playground.

We really do love it!

Sincerely,

Helen Brockman
Principal, Little Falls Public School
