

SODA @ A GLANCE

Slot Optimization & Data Analytics

Bring your **slot data to life** with an intuitive platform that delivers **unique insights** to optimize your slot floor mix and placement.

Maximize Profitability

Automated floor mix and location recommendations with estimated lift

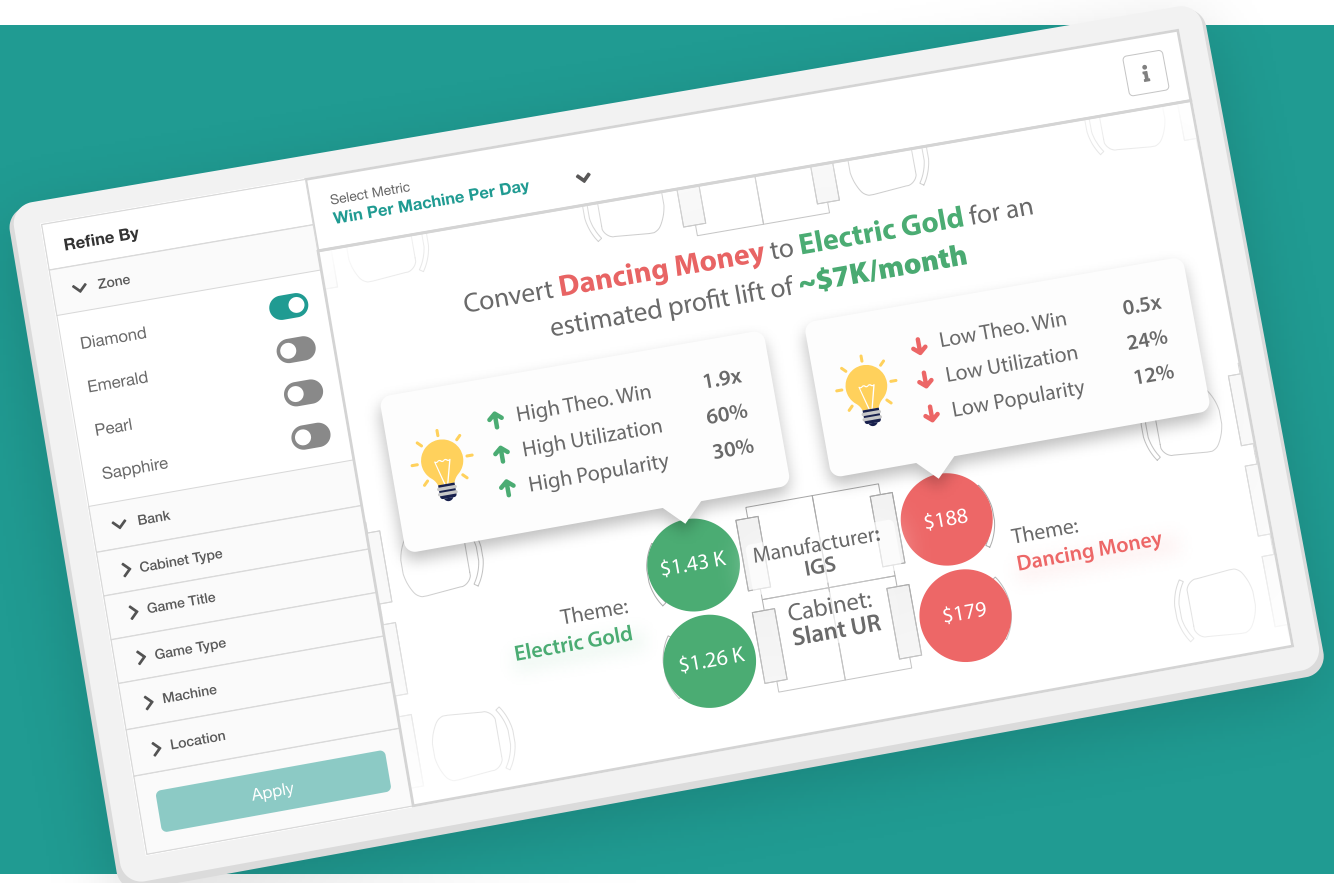

Boost Productivity

Easy setup and access deep insights in minutes

Improve Guest Experience

Built in popularity and loyalty KPIs

Powerful Analytics

Rank and filter by manufacturer or game title or slice down to the individual machine with a few clicks. Visualize all the relevant KPIs directly on your floor map.

Actionable Recommendations

Identify new optimization opportunities based on financial performance and popularity models, quantified with incremental profit impact.

Seamless Tracking

Automatically track floor changes and measure true financial lift after accounting for dilution and cannibalization.

Easy to Setup & Customize

Upload your existing floor map PDF files and configure your floor in minutes. On-going maintenance is simple, intuitive, and hassle-free.
