- Disaster recovery

Customer Benefits of Cloud Computing in an SAP Software Environment

- Rapid, dynamic, and hassle-free provisioning
- Lower total cost of ownership
- Higher return on investment in SAP solutions
- Utility-like “pay-as-you-go” service that enables cost-effective handling of spikes in software demand
- Improved balance in the utilization of computing resources required during peak demand and normal demand times for SAP solutions

A Leader in Cloud Computing Solutions

Leveraging its deep expertise in cloud technologies and infrastructure integration specific to SAP® solutions, Wharfedale Technologies Inc. (WFT) provides complete on-demand and on-premise infrastructure modernization and cloud services. These services enable customers to gain new efficiencies and realize cost savings while lowering total cost of ownership.

Why Certification from SAP?

A member of the SAP Extended Business program since 2007, WFT deployed the first completely virtualized SAP production landscapes. The company became an SAP® certified provider of cloud ser-

WFT has grown its cloud-based offerings in part by investing in a team of consultants, each with deep expertise in infrastructure design related to cloud deployments for SAP software landscapes. And as a member of the Cloud Advisory Council, WFT has the expertise needed to design and operate cloud systems, as well as integrate enterprise applications with cloud solutions.

A Growing Base of Satisfied Cloud Customers

Today, more than 20 customers trust WFT to meet their technology requirements through cloud-based solutions. Customers enjoy rapid, hassle-free provisioning of all types of SAP software, as well as real-time scalability (or elasticity) to handle spikes and fall-offs in

“A cloud-based infrastructure can provide resources to address transient load characteristics of an SAP software landscape. It allows you to set the precedent for an infrastructure free of capital expenditure.”

Ganesh Radhakrishnan, CEO, Wharfedale Technologies Inc.

vices in 2010. Because of this certification, customers can be confident that WFT can provide a cloud-based infrastructure that addresses the transient characteristics of SAP software landscapes.

demand for cloud-based technology services. And because WFT offers a “pay-as-you-go” approach to technology, customers can lower their total cost of ownership and realize a higher return on investment in SAP solutions.
