

CASE STUDY:

+

Production Company standardized process & automated 4+ hours a week per coordinator

“We needed to standardize our process, save time, and cut down on errors. Tripgrid automated over 250 hours a month for our team”

Katie Ratto

Production Coordinator

“We move people all over the world. We needed an easy and efficient workspace that streamlined everything and eliminated mistakes.”

Role: Coordinate production logistics including crew travel, transportation, and permits

Old process: Storing travel in folders, building documents (Word / Excel), data entry, copy / pasting, making changes, and tracking travel - all by hand.

Company: Leopard USA

Industry: Production

Employee Size: 125

Average Travel Spend: \$1 million

Group Travel:

3-5 travelers per group

40+ trips a month

US and International travel

Group Travel Type:

Production crew and talent travel

Uses a Travel Agent: Sometimes

“After using Tripgrid for over a year you could not pay me to go back to managing travel the old way”

Challenges

Manual Data Entry

Human Error / Mistakes Made

No Standardization

Scattered Travel Information

With tripgrid

4+ hrs x **16** = **250+ hrs**
a week saved Production Coordinators a month saved

Everything standardized and in one place

Favorite Feature:
Travel Dashboard

“I email my reservations to Tripgrid and it does all the work. This personally saves me hours in data entry every week.”
