Paboco A/S is searching for a Senior CAD Engineer

We are Paboco, the paper bottle company, we are changing the bottle industry for good by designing for circularity using renewable materials.

The paper bottle project is an innovation community joining some of the world's leading players in materials, design and technology; united by the vision to create the world's first fully bio-based and recyclable paper bottle. www.paboco.com

We are now seeking a new employee to strengthen our engineering team.

Now you have the chance to be part of an incredible strong team, consisting of specialists from within the paper manufacturing and bottle production industry.

Job responsibilities

As a Senior CAD Engineer at Paboco you play a key role for the company to technically enable the next steps towards commercialization. You envision virtual concepts and robust designs based on ideas from yourself and the team. The focus will be on design and engineering moulds for Paboco Core Technology including relevant documentation and drawings for manufacturing.

Further, it is your responsibility to enable economical optimized solutions, in terms of purchasing, manufacturability and durability.

In addition, it is within your responsibility to purchase the necessary supply items from external companies and coordinate timings. You will report to the Technical Director.

Job skills and qualifications

- Bachelor's degree in engineering or similar
- Minimum 5 years of experience in CAD engineering, preferably Solid Works knowledge
- Experience from packaging industry and its standards is a plus
- Experience in machine and mould construction
- Excellent problem-solving skills
- Strong teaming & communication abilities
- Great English skills both written and oral
- A creative mind and problem solver
- A true drive for a more sustainable future
- Ambitious and strive to always do better

Paboco A/S is an international tech scale up working to change the bottle industry for good. Our focus is within research and development in the paper, barrier and bottle processing and manufacturing. Paboco is situated in Slangerup in northern Zealand near Copenhagen. We have close collaboration with the industry through our owners, Swedish BillerudKorsnäs paper packaging solutions provider and the Austrian Alpla, bottle manufacturing specialist. We have a strong sustainable drive and vision to change the packaging industry, and here you will have the chance to contribute to our vision towards a more sustainable everyday life. As we make the company grow you will have the opportunity to grow with us.

Selection is continuous and the last date to apply is Mar 20th:
