

Helping cancer patients get in control, anytime, anywhere.

CancerAid assists you and your doctor with care decisions. Tracking symptoms and sharing these with your clinical care team can help reduce the risk of hospital admission and has shown to improve outcomes.

Download and use for free. Always.

Your Digital Companion in cancer care

Community

Stay informed and motivated by reading people's stories and health related articles

Champions

Nominate your loved ones and care team to stay up to date with how you are going

Tracking

Be prepared for appointments by recording symptoms and medication use

Treatment profile

Access medically reliable and personalised information about your condition and treatments

Your information is safe and your privacy respected
