How we help schools

National Curriculum

English

Gaining confidence in expressing individual ideas to others and learning how to develop a professional communication with a client.

Mathematics

Using mathematical principles and conceptual skills when solving real and relevant issues.

Citizenship

Gaining contextual knowledge about investment and how to make responsible financial decisions.

Art

Developing creative skills when exploring ideas in a group and making visual representation of the project.

Design and technology

Applying a repertoire of knowledge to design a solution to a client's problem.

Gatsby Benchmarks
