

Seeking participants for mental health research!

\$200 Compensation!

Do you have a diagnosis of schizophrenia or schizoaffective disorder?

Join our study and learn how information that your phone and a smartwatch collect may in the future provide information about understanding depression or schizophrenia!

What you'll get:

Use of study **smartphone apps** to track your mood and play games

Up to **\$200** for your participation

Use of a **smartwatch** for the duration of the study

A copy of all of your **app and smartwatch data**

Interested?
