Core Strategy

The Fund blends fundamental and quantitative strategies to develop opportunities to generate returns. This strategy generates concentrated and uncorrelated returns from fundamental investing, improving on returns derived from the breadth of the quantitative process. This is done by taking both long positions and short positions in selected Australian equities that are listed on the Australian Securities Exchange (ASX) or which are expected to be listed within 90 days. The Fund is a long/short strategy with the typical asset classes held by the Fund comprising Australian listed equities, cash and cash equivalent instruments and exchange traded derivatives as shown in the Asset Allocation and Liquidity Profile table below. The majority of the Fund's investments is held in Australian securities and priced in Australian dollars.

Asset Allocation and Liquidity Profile as at 30 June 2020

CIML reasonably expects that it would be able to realise at least 80% of the Fund's assets, at the value ascribed to those assets in calculating the Fund's most recent NAV, within 10 days.

Maturity Profile of Fund Liabilities

Leverage Ratio

Although the Fund will borrow stock from the Prime Broker (Morgan Stanley & Co International PLC, a UK entity) to enable short positions as part of the investment strategy, the Fund does not leverage by borrowing cash or using derivatives to increase exposure of capital.
