Payment Process

50% of the incentive payment will be payable after the learner has been employed for 4 weeks (assuming that they are still undertaking their apprenticeship). The funds will be with you within 12 weeks.

The remaining 50% will be payable after the learner has been employed for 270 days and is still undertaking their apprenticeship.

Additional Incentive

Employers will be able to apply for £1,500 additional funding if they employ apprentices with a disability. This can be claimed irrespective of age and in addition to the other incentives.

It should be noted that the incentives will be applicable irrespective of whether the new recruit was made redundant from their previous apprenticeship. Payments are restricted to ten learners per business. Incentives do not apply to degree apprenticeships.

Please note eligibility criteria applies.
Visit our website for more information.
The incentives will run until 28 Feb 2022,
subject to budget availability.
