

# SOUTHERLY BUSTER PLANS CRITICAL INFORMATION SUMMARY

## INFORMATION ABOUT THE SERVICE

### SERVICE DESCRIPTION:

The Southerly Buster Plans provide high speed internet access to your building or home via a point to point fibre-optic connection which may, depending on your location, also be extended by converting to microwave data, for then transmitting a secure wireless signal.

The Southerly Buster Plans provides symmetrical speeds of between 25MB and 100MB depending on the plan selected (see next section). The actual speeds you experience may depend on factors such as your equipment, the number of end users, the source of the data and the applications in use. More information about the speeds of SouthCloud® services is available at [southcloud.online/broadbandspeeds](https://southcloud.online/broadbandspeeds).

### SERVICE AVAILABILITY:

This service is only available to eligible customers located at installation addresses in a serviced area. Availability for the service can be confirmed by emailing us at [support@southcloud.online](mailto:support@southcloud.online) or by calling us on [1800 001 555](tel:1800001555). A site survey is likely to be required.

### EQUIPMENT REQUIRED & INSTALLATION COST:

You may require a distribution frame or similar network termination device to be installed at your premises. From there, access to the internet from SouthCloud® will be either:

1. Installing a hardwired modem/router with both Ethernet and WIFI connectivity, within your premises to connect to your devices, or
2. Alternatively, a Wireless Access Point which SouthCloud® will install within your premises in a main common area in order for you to connect to your devices.

SouthCloud® or one of its suppliers can install at additional fee-for-service cost which will be quoted to you prior to order confirmation.

Equipment installed will continue to be owned by SouthCloud® and/or its suppliers except any fixed wireless equipment attached to your premises which will be owned by you.

### MINIMUM TERM:

The minimum contract terms for these services is 24 months. If you terminate prior to the end of the minimum contract an Early Termination Fee will apply (see Table 2 on next page).

## TABLE 1 - KEY INFORMATION ABOUT PRICING & PLANS

Plan	Typical ↑↓MB Speeds	Peak Hr 5pm-11pm MB Speeds	Min Term	Data Allow	Cost per Mth	Install Cost*	Min Cost 36 Mths
