

Innovu Plan Design Benchmarking Model

Innovu's plan design benchmarking module provides unparalleled, real time insight into how employers are structuring their medical and pharmacy plans.

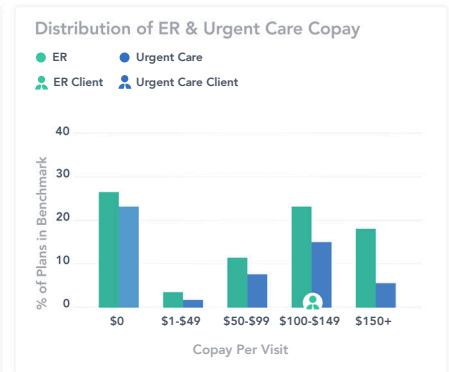

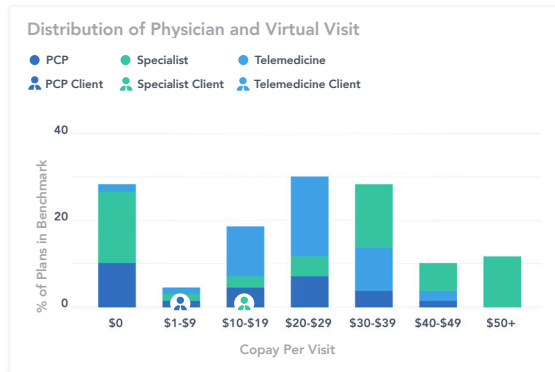

Don't rely on competitor or carrier data anymore

Whether your client is fully insured or self-insured, you can provide detailed information based on geography, industry, benefit plan type, and employer size. You no longer have to use dated information from competitors and carriers.

Innovu created a plan design benchmark based on the account structure information we capture, so you can benchmark detailed metrics, including but not limited to:

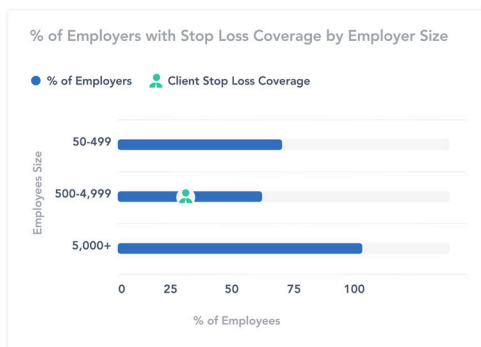

- Stop loss attachment points
- Administrative fees

Medical Claim Benefits

Know how each client compares

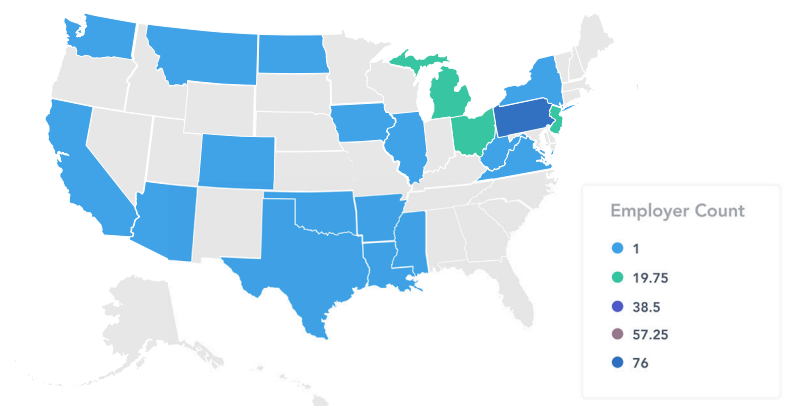

Stop Loss Coverage & Rates

Our Plan Design Benchmarking Module identifies exactly how your client compares by inputting their plan design information and claims data directly into the output.

You won't find this level of information anywhere else.

Distribution of Employer by State

Call Innovu to get Plan Design Benchmarking!
